This is the third annual *TIPS & TRICKS VIDEO GAME CODEBOOK*, and it's the biggest ever; we've added an extra 16 pages and actually cut down on the number of advertisements just so we could bring you all of the new tips that we've discovered over the past year—including systems like Saturn and Sega CD which were not included in the 1999 edition. There are an awful lot of rip-off "codebooks" out there, most of which have fewer pages and deliver less information for a higher price. Rest assured that none of these fly-by-night competitors can deliver a package that's as valuable as the one you're holding in your hands at any price. We've been doing it longer than anybody else and—doggone

it—we're just plain better!

Within these pages you'll find thousands upon thousands of reliable video game secrets, tips and cheat codes from the *TIPS & TRICKS* archives. They represent over ten years' worth of professional game testing and meticulous documentation, offering a depth and level of quality that no one else can match. We hope you like the result—thanks for buying it! And if you're not one of our regular readers, please check your local magazine rack for the latest issue of the monthly *TIPS & TRICKS*; you'll see why we're proud to call it "The #1 Video-Game Tips Magazine."

A BUG'S LIFE

Stage Select

At the "Flik's Journey" screen, hold C₀ and press the R button. Now point the analog joystick to the Right and you'll see that the entire game has been unlocked, allowing you to start at any stage.

AERO GAUGE

Extra Tracks & Vehicles

Note: You need two controllers to input this code, and it can be difficult to get the timing right, so if it doesn't work the first time, try again. First, turn the game on and hold L + R + Z on Controller 2. When the title screen appears with the words "Push Start" flashing in red, quickly tap Up on the D-pad and the C₀ button at exactly the same time (also on Controller 2); you must also be sure to release those two buttons at exactly the same time. Finally, press START or A on Controller 1 before the title screen disappears. If you've entered the code correctly, you should see two new courses at the track-select screen and five new vehicles to choose from, including one that's shaped like a Nintendo 64 controller. Press the R button repeatedly at the vehicle select screen to change the color of the N64 controller to red, green, blue, black or yellow.

Turbo Start

At the starting line, hold the A and B buttons. When the announcer says, "Set, Ready, GO!" release the B button just before he says "GO!" This gives you a speed boost at the start of the race.

Turbo Boost

During a race, hold the A button to accelerate, hold Z and point the joystick hard Left or Right, then release both buttons and quickly press A again. This is a difficult trick to perform, but if you do it successfully, you'll hear a sound and you'll get a burst of speed.

AEROFIGHTERS ASSAULT

Stage Select

When you turn the game on, wait for the Video System and Paradigm Entertainment logos to disappear, then enter the following code as soon as you see the planes flying in the introduction sequence: Up, C₀, Left, C₀, Down, C₀, Right, C₀, L, R, Z. You'll hear a sound to confirm that the code has been entered correctly. Next,

choose
"Main Game"

from the Game Mode menu; a stage select menu will appear, allowing you to practice any stage. The save options are deactivated when this code is in place, so your regular game scores won't be affected.

Secret Character: Mao Mao

Wait for the words "Press Start Button" to appear on the title screen, then press C₀, C₀, C₀, C₀, C₀, C₀. At the "Pilot Select" screen, you'll find a new character called Mao Mao who pilots an F-15. Note: You may have already gained access to Mao Mao if you continued more than three times in the Tokyo stage.

Secret Character: Spanky

To access another secret character, you must complete the following requirements:

- 1) Earn more than 170,000 points by the end of the Pacific Ocean stage; this will allow you to play the first bonus stage, "Air Landing".
- 2) Clear the Tokyo, Pacific, Ocean and Air Battle stages in less than 1,400 seconds; this will allow you to play the Desert stage during daytime.
- 3) If you clear the daytime Desert stage, you'll access the second bonus stage, "Shuttle Defense."
- 4) If you clear the "Air Landing" and "Shuttle Defense" bonus stages, you'll enter the third bonus stage, "Goliath Defense," after the Fortress level.
- 5) If you clear the "Goliath Defense" bonus stage, you'll enter the fourth bonus stage, "Space," after the Antarctic Ocean and Ice Cave levels.
- 6) If you clear the "Space" bonus stage, you'll be able to access Spanky, an X-29 pilot.

Bottles' Bonus Codes

Enter Banjo's house, stand on the yellow lines on the carpet directly in front of the fireplace, then press the C button to enter the first-person camera view. Now look directly at the picture of Bottles on the wall; Bottles will give you a puzzle to solve. Note: Bottles will not allow you to access the puzzles until you have obtained the puzzle piece from the sand castle. There are seven codes available if you can solve all of the puzzles. IMPORTANT: The codes are listed below for reference only; they will not work unless you actually earn them by beating the puzzles that release the codes.

Note that the crate will not be there unless you are playing in Championship mode. Once you've smashed the crate, finish the race; the words "Cheat Menu Activated" will appear at the Player Results screen. Now return to the main menu and access the Options screen; you'll find a new option called "Cheats" at the bottom. Each item on the cheat menu must be "unlocked" before you can use it; you will unlock a new cheat each time you smash a flower crate in Championship mode. Some of these crates are very well hidden, so you're going to have to do a lot of searching to find them.

DIDDY KONG RACING

Play as Drumstick

To play as Drumstick, you must first earn all of the trophies and amulets in all stages. Once you've done this, return to the main area where Taj can be found and look for the frogs that jump around in the watery area in front of the giant WizPig head. One of the frogs will have a red rooster comb on its head; if you touch that frog with your vehicle, Drumstick will be released.

Play as T.T.

To play as T.T. you must race on each course in Time Trial mode until T.T. comes out to challenge you; he won't appear until you beat the pre-programmed track record in a

particular track by a fairly large margin. When he challenges you, you must defeat him in a race on that course. Once you beat him in a particular track, a small T.T. icon will appear when you select that track in Time Trial mode. When you beat T.T. and earn this T.T. symbol in every single track, T.T. will appear as a playable character.

MORTAL KOMBAT TRILOGY

Play as Kameleon

When the "story" screens appear during the game's demo mode, quickly press C, C, A, B, C, C, C. If you're fast enough, you'll hear Shao Kahn say, "Kameleon." Now Kameleon is a selectable character at the character-select screen.

Play as Motaro

Choose any character, hold High Kick + Low Kick and point the D-pad or joystick away from your opponent before the battle begins. When the fighters appear on the screen, you might change into Motaro. Note: This trick only works in certain stages, including the Wasteland and Jade's Desert.

Play as Shao Kahn

Choose any character, hold High Punch + Low Punch and point the D-pad or joystick Down before the battle begins. When the fighters appear on the screen, you might change into Shao Kahn. Note: This trick only works in certain stages, including the Rooftop and The Pit 3.

Hidden Game #1

After playing 50 consecutive games in two-player mode, you'll get to play a hidden game that's similar to *Pong*.

Hidden Game #2

After playing 100 consecutive games in two-player mode, you'll get to play a hidden game that's similar to *Galaxian*.

Hidden Game #3

When fighting on The Pit stage, keep an eye on the moon in the background. If you see a shadow of any kind flying in front of the moon, press the Z button; if you do this, the winner of that match will get to play a hidden game that's similar to *Space Invaders*. This game also appears if you play 150 consecutive games in two-player mode.

Stage Select

At the character-select screen, highlight Sonya, hold Up and press START, then choose your character normally. A "Select Kombat Zone" option will appear before the fight, allowing you to choose the stage you'd like to fight in.

Super Hard Mode

At the character-select screen, highlight Kano, hold Down and press START, then choose your character normally. When the "Choose Your Destiny" screen appears, you'll find that all of the battle plans have been changed to make them much more challenging. The "Novice" plan now includes three endurance matches instead of one, and the "Champion" plan starts with battles against Kameleon and Motaro—followed by a whopping eight endurance matches.

Free Play

When the "story" screens appear during the game's demo mode, quickly press Down, Down, Up, Up, Right, Right, Left, Left on the D-pad. You'll hear a crunch sound to confirm the code. Now when you die in a one-player game, you'll find that

the credit counter has been replaced by the words "Free Play," which indicates that you can continue as many times as you wish.

Secret "More Kombat" Menu

When the "story" screens appear during the game's demo mode, quickly press Run, High Punch, Low Punch (that's C, B, A in the default control configuration.) You'll hear Shao Kahn say "Outstanding!" Now press START to access the Kombat menu, then hold Up and press START. When the main menu appears, you'll find a new option with a blue question mark; this cheat menu allows you to activate the stage-select feature, disable throwing, activate unlimited "run" meters, turn on "Bloody Kombat" and activate the two secret characters, Human Smoke and Kameleon.

Secret "Kombat Cheats" Menu

When the "story" screens appear during the game's demo mode, quickly press High Kick, Low Kick, Run, Low Punch, High Punch, High Punch, Low Punch, Low Punch (that's C, C, C, A, B, B, B, A, A in the default control configuration.) You'll hear a voice say "Ow-uh!" Now press START to access the Kombat menu, then hold Up and press START. When the main menu appears, you'll find a new option with a red question mark; this cheat menu allows you to activate Free Play mode, disable the Fatality timer (giving you infinite time to do a finishing move), set one-round matches or turn the game's collision boxes on. The collision boxes are tools that the programmers use to check the characters' hit detection, but you can use them to study the attack ranges and defense parameters of your favorite fighter. When you attack, a blue box appears that shows the area of the screen that's within range of your attack and a red box appears that shows your opponent's vulnerable area. If the blue box touches the red box, your attack will connect. Note that the above code also activates the blue question mark menu as described above.

MULTI RACING CHAMPIONSHIP

Unlock Bonus Cars

To access the two locked garages, you must beat each track in Championship mode to gain access to Match Mode, then race in Match Mode and defeat both the Hannya and the Dues cars. If you don't want to take the time to do this, you can access both cars with the following trick: Plug in two controllers and access "Vs. Race" mode. Choose "Machine," then—when the car select screen appears—highlight one of the locked garages and press B; the word "Selected" will appear to confirm your choice. Both players can choose the Hannya or Dues in this mode; even better, if you use this trick to choose one of the "locked" garages for Player 1, then exit "Vs. Race" mode after leaving the car select screen, you can choose "Championship," "Time Trial" or "Free Run" mode from the main menu and the Hannya or Dues you chose in "Vs. Race" mode will still be selected.

Cheat Menu
 Choose "Tournament" from the main menu. When the "Select Player" screen appears, choose any "empty" slot. When the "Please Enter Your Initials" screen appears, enter the passcode "RRTAGENTABACUS" by holding the Z button and pressing L to select each letter. Note that this procedure is not the same as choosing letters with the A button; if you hold Z and select letters with L, your code will appear in much smaller letters in the lower left corner of the screen. Also, you must complete the code by continuing to hold Z as you highlight "END" and press L; the letters "OK" will appear in the corner of the screen if you've entered a code properly. With this code in place, release Z and enter your initials. Next, start a race and press START to pause. At the pause menu, press Left, Down, Right, Up on the D-pad; a new option called "Game Cheats" will appear. At the "Game Cheats" menu, use the joystick and D-pad to highlight the different options and change their parameters. You can make yourself invincible or "mirror" the track at this screen or even adjust the parameters that the game uses to determine when a collision will destroy your vehicle. Highlight "Edit Vehicle Stats" and press A to access another menu that allows you to tweak the performance of every vehicle in the current race. Also, if you set the "Debug Level" option to anything but 0, you can also use the following commands at any time during a race:

- Hold Up on the D-pad to fast-forward
 - Hold Down on the D-pad to reverse at high speed
 - Press Right on the D-pad to self-destruct
 - Hold Left on the D-pad to make your vehicle invisible
 - Hold Z + Left on the D-pad to see an x-ray view of the current screen (this also works at the menu screens after and between races)
- Special Control Scheme**
 Using the procedure described above under "Cheat Menu", enter the passcode "RRDUAL" at the "Please Enter Your Initials" screen and remember to choose "END" with the Z and L buttons to get the "OK" signal. This code changes the game to allow you to use the analog joysticks on two controllers to drive your pod racer. Pressing Up on the joystick propels you forward, press Down to steer. The controller ports are assigned as follows:

Player 1, left pod: Controller 1
 Player 1, right pod: Controller 3
 Player 2, left pod: Controller 2
 Player 2, right pod: Controller 4

Note that the controls may not work properly if you plug the extra controller(s) in after the game has already been turned on. For best results, make sure you have all of the necessary controllers connected to the N64 before you turn the machine on.

Repeat the process with the analog stick to the left again, then again to the right, and once more to the left; you should hear a sound to confirm at each step, and at the end of the procedure, a cheat menu will appear at the top of the screen in pink letters. - Kill Dash
- Teleport (to another location in the current stage)
- (Skip to) Next level

- (Return to) Previous Level
- Wall Ghost (Press Up on the analog joystick to turn this option "on," now you can walk into walls and go right through locked doors. Press Down to deactivate.)

You'll notice the new item at the pause menu called "Game Secrets;" check this out to find some additional cheats that you can use in certain stages; one of them gives you a fully three-dimensional mapping system. Finally, with this code in place, if you choose "Quit" from the pause menu and return to the stage-select menu, you'll find that all of the stages have been unlocked.
Play as X-Wing or TIE Fighter
 Play through the Skyhook Battle stage until you reach the Skyhook station. Once you're given control of the Outrider, change the camera angle until you have a view of the Outrider from behind. Once the code is in place, press C to toggle between the snowspeeder and the AT-ST.
- In the "Escape from Echo Base" stage, hold C and press Left on the D-pad; you'll be controlling one of the Wampa creatures that are being held in cages on this level. (Note: This code won't work at the "Easy" difficulty level because the first Wampa cage will be empty.) You can still control Dash with the analog stick while playing as the Wampa. Use the D-pad to control the Wampa; hold Down to attack. Once the code is in place, press C to switch between Dash and the Wampa.

TOP GEAR RALLY

Cheat Codes

Each of the following codes can be entered at any time during the game, but it's best to do them slowly and deliberately while you're at the menu screens before the race:

- Access all cars (except bonus cars)—**A, Left, Left, C, A, Right, Z**

- Access All Tracks (except Mirror Tracks)—**A, Left, Left, Right, Down, Z**

- Access Mirror Tracks—**Right, Up, Left, C, Right, Down, Z**

- Access Milk Truck—**Down, A, Right, Z, Right, Up, C**

- Access Ice Cube Car—**C, Up, B, Right, A, C, A, Right**

- Access Beach Ball Car—**B, B, A, Left, Left, C, A, Right**

- Access Mirror Cars—**Right, Up, Left, C, C, A, Right, Z**. With this code in place, press **C** at the Car Select screen to change any car into a mirror-textured vehicle.

- Non-Blur Mode—**B, Left, Right, Up, Left, Z, Right**. This code turns off the N64's "bilinear filtering" effects, making the graphics appear to be more "pixelated."

- ZBuffer Mode—**C, Z, B, Up, Up, Right**. The ZBuffer is used by the N64 to determine if a pixel that is about to be drawn is in front or behind the pixel already on the screen. This buffer is exactly the same size as the buffer that contains the color information for each pixel. When you enter this cheat, the N64 continuously copies the current ZBuffer data into the color data, and the result is a freaky mess of colors on the screen. Enter the code again to turn ZBuffer Mode off.

See the Credits
Choose "Options" from the main menu, then highlight "the Load Configuration" option and press **C, Right, Down, Z**. You'll see the full credit sequence from the end of the game—not the abbreviated version that can be called up from the Options menu at any time.

Secret Loading Screen

Hold the R1 and O buttons at any point in the game when the standard "bird logo"

loading screen is about to appear. If the "bird" screen appears, you're too late—but if you held the buttons down at the right time, you should see a new, black loading screen with little compact discs bouncing around.

Hidden Game

When the secret CD loading menu appears as described above, quickly press Up, Left, Down, Right. A tiny picture of a Flygar—the dragon character from Namco's classic Dig Dug arcade game—will appear in the lower left corner of the screen to indicate that the code worked. This time, don't hold any buttons—the "loading" menu will be replaced by a strange hidden game in which you must steer the Air Combat bird symbol around the screen and destroy as many of the passing ships and missiles as you can before a tiny bird can walk from the left side of the screen to the right. CRASH BANDICOOT 2**CORTEX STRIKES BACK****10 Extra Lives**

See the little polar bear in front of the door that leads to the "Bear It" stage in the second warp room? If you body-slam the critter five times in a row, you'll get ten extra lives.

Secret Levels

To access Level 26: Totally Bear, ride the bear cub in Level 15: Un-Bearable until you get thrown off at the end of the stage. Do a long jump to go back across the chasm and return to the cub to warp to the first secret level.

To access Level 27: Totally Fly, fall into the pool of water in the latter half of Level 16: Hangin' Out, then walk backwards instead of advancing past the checkpoint box. You'll fall into another hole that leads to a "hanging" area with flying spiky creatures.

While Crash is hanging, use the \square or R1 button to lift his legs up and allow the spiky guys to pass below him; take it slow, advancing only one "step" for each enemy "lap." If you get through, you'll be warped to the second secret level.

Bring Back Bosses

You'll encounter a series of pterodactyl creatures who fly up into the air as you pass. If you jump into the clutches of the second pterodactyl, it will carry you to the top-secret Level 32: Eggipus Rex.

You should hear a small explosion to confirm the code; if you don't hear it, keep trying. Once the code is in place, start a match in any game mode and you'll find that your stamina will never go down—but neither will your opponents'.

Strength Adjust

During a match, press **START** to pause, then press **L2, R1, L1, R1, L2, R1** while paused. A number "5" will appear above each fighter's name. This number represents your fighter's attack power; press **Up** or **Down** to change it to any number from 1 (weak) to 9 (very powerful.) Use Controller 2 to change your opponent's attack power.

Alternate Costumes

At the title screen, hold **L1 + R1** and listen carefully until you hear three chimes followed by a higher-pitched chime. Now three of the game's fighters have different costumes: Musashi and Andy Hug have martial arts Gi outfits and Sam Greco has long pants.

MONSTER RANCHER**Secret Monsters**

There are over 40 special monster types hidden in *Monster Rancher* that can only be found by using ONE specific CD in the Shrine. The following list tells you the names of some of the CDs you can use to get these special monsters. Please be aware that the CDs on the following list are not 100% guaranteed to work with *Monster Rancher* the way they should. Occasionally an audio CD will be re-mastered or re-released with slightly different track listings; if there are several different "pressings" of a particular CD, it may happen that your copy of the CD in question will not be recognized by the game and will not give you the monster you're expecting. Also, some monster types are so rare that you will not be allowed to leave the shrine with them unless you have "committee permission" from FIMBA. If you get a message like this one, you must continue to play the game until you improve your grade as a breeder.

More Secrets

- The average monster will not live long enough for you to take it from the "E" ranking all the way up to "S" rank. There is a special food item in the game which will automatically increase your monster's lifespan by one year; otherwise, you should try not to push your monster too hard if it is tired, sick or injured. If your monster lives to be 10 years old, you will be rewarded with a special birthday song!
- Some special monster types can be created by combining two monsters in the Lab with the right item. For example, if your monster goes out exploring with Karn and finds a Magic Banana, take it to the Lab and use it when you combine two very lazy monsters; both should have a "style" rating of "Spoil." The result will be a rare Ape monster style.
- If you continue to play the game for many "years" of game time, new items will appear for sale in the item shop which will allow you to create rare monsters by using them when you combine monsters at the Lab.
- When your monster dies and you go to the shrine to create a new monster, there is a 1-in-16 chance that the new monster will be imbued with the spirit of the monster who died. A monster who is "possessed" in this way will not live long, but if you take it to the Lab and combine it with another monster, you may be rewarded with a rare "Ghost" monster type.
- To earn the rare "Doodle" monster type, breed a monster of the "Monolith" type until its "Fame" level rises above 80. Once you're there, allow the monster to lose battles until its Fame drops below 65; if this happens, the monster will become vandalized and change into the "Scribble" type. Combine the "Scribble" monster with another monster in the lab to get the "Doodle" type.
- To earn the extremely rare "Disc" monster, you must freeze a monster of the "Gooaall!" type and another of the "Radial" type and combine them in the Lab.

MONSTER RANCHER 2**Secret Monsters**

As in the original *Monster Rancher*, the best way to generate new and different monsters is by visiting the Monster Shrine and inserting different compact discs into your PlayStation; listen to the priest's instructions to find out how this is done. Any CD can be used, from your favorite music CDs to computer CD-ROM discs or even other PlayStation titles. The game reads some of the digital data from your CD and uses those numbers to generate a monster that you can raise on your farm. There are also many special monster types that can only be found by using ONE specific CD. For example, if you use Quiet Riot's *Metal Health* CD to create a monster, you'll get a creature called "Bloodshed" that you can't get from any other CD. The following is a list of these "special" CDs which can be used to create special monsters. Please be aware that the CDs on the following list are not 100% guaranteed to work with *Monster Rancher 2* the way they should. Occasion-

ally an audio CD or PlayStation game will be re-mastered or re-released with slightly different track listings; if there are several different "pressings" of a particular CD, it may happen that your copy of the CD in question will not be recognized by the game and will not give you the monster you're expecting. **TIPS & TRICKS** apologizes for any such discrepancies you may encounter.

MORTAL KOMBAT 3

Play as Smoke

During the opening demo—anytime after the copyright screen appears—rotate the D-pad 360° clockwise until the "Ultimate Komat Kode" prompt appears. Enter the code Dragon-MK-Dragon-Goro-Skull-Goro by pressing R1 once, Δ six times, X six times and O nine times. You'll hear Shao Kahn say, "Outstanding!" and a message will appear to confirm the code. Now the hidden robo-ninja Smoke is a selectable character in the one- or two-player modes.

Secret Cheat Mode

During the opening demo, quickly press X, O, Δ , R1, R1, R2, R2, R1, R1. You'll hear Shao Kahn say, "You will never win." Now press START; when the stone block appears with the word "KOMBAT" in red, press Up to access a secret cheat menu.

Turn "Free Play" on for infinite credits in the one-player mode. Turn "Smoke" on to activate him as a playable character without using the Ultimate Komat Kode. Turn "Fatality Time" off to give yourself infinite time to perform fatalities. Turn "Level Select" on and you'll be able to choose any stage—including the Hidden Portal—from a menu at the bottom of the character-select screen after you choose your fighter. With "One Round Match" on, fights will last just one round, and with "One Hit Death" on, the first player to strike will automatically win the round.

If you're having trouble remembering this code, here's a simpler version: During the opening demo, press X, L1, L2. You'll hear a whooshing sound. Now you can access a shorter version of the cheat menu without the "One Round Match" or "One Hit Match" options.

MORTAL KOMBAT 4

Secret Cheat Menu

Start a game in two-player mode; when the "vs." screen appears, enter the Komat Kode "3, Skull, 2, 2, 1, 3" as follows:

• Player 1: Press Low Punch three times and Low Kick twice

• Player 2: Press Low Punch twice, Block once and Low Kick three times

After the match starts, press START to pause and choose "Exit" to return to the main menu. Next, select "Options", highlight "Vs. Screen Enabled" and hold Run + Block. After a few seconds you'll hear a laugh; continue to hold the buttons down until the "Cheats" menu appears. Turn the "Endings" option on and you'll be able to see your character's ending sequence after winning just one match in one-player mode; the other three options allow you to perform fatalities with just one button press.

Secret Characters

To play as Goro or Noob Saibot, you must first enter the "Secret Cheat Menu" code shown above. Once that code is in place, start a game and follow these instructions at the character-select screen:

1) Highlight the "Hidden" box at the bottom of the screen, press Block and continue to hold it down.

2) To play as Goro, move the invisible cursor up to Shinnok (you'll have to listen to hear the cursor moving around so you'll know where it is), press Run and continue to hold it down.

To play as Noob Saibot, move the invisible cursor to Reiko, press Run and continue to hold it down.

3) Continue to hold Block + Run until the fight starts.

Extended Roster

Each of the NBA teams in *Jam T.E.* has more than three players available to choose from. To find these hidden bonus characters, just put the cursor on the team you'd like to choose, hold the SELECT button and rotate the D-pad in a counter-clockwise direction. A card will drop from the top of the screen that says "EXTENDED ROSTER"; now you'll see extra players as you toggle through the line-ups with the SELECT button. Note that if you choose the extended roster for one team, then decide to choose a different team, the extended roster will not be available for the second team. This trick also works at the "Substitution" screen.

Power-Up Codes

Just like all of the other versions of *NBA JAM*, the *PlayStation Tournament Edition* offers plenty of power-up codes. Each of these codes must be performed at the "Vs." screen, when the announcer is saying, "Tonight's match-up...etc." In most cases, you'll see text on the screen that tells you the code is in place. Some of the codes don't show you immediate results on the screen, but you'll know they have been activated if you see your player flashing white before the tip-off.

Unlock Legends Players

From the "Game Setup" screen, press O to open the menu. Move the cursor to "Players," then press Right and then X to enter the Create Player screen. Enter any of the names below as the new player's name. Each line lists the name of the real player followed by the first and last name that you must enter to unlock that player, separated by a comma. For example, to unlock Charles Barkley, you must enter your newly created player's first name as MOUND OF and his last name as REBOUND. Note the space between the two words in the first name. Immediately after entering a name correctly, you'll get a message telling you that you've unlocked that player. In order to use unlocked players, you must go to the "Unlock Legends" screen and change their status to "Active."

All-Star Weekend

Choose "Exhibition" from the main option menu; then, at the "Exhibition" menu, press R1, L1, R1, L1, R2, L2, R2, L2. You'll see a new option called "All Stars" at the bottom of the screen. Set this option to "94/95" to play an exhibition match in Phoenix; the court will be decorated with the '94-'95 All-Star Weekend logo. Better yet, if you press R1, R1, R2, R2, L1, L1, L2 at the Exhibition menu, the "All Stars" option will also allow you to choose to play a game in San Antonio with the court decorated as it was for the '95-'96 All-Star game. The teams will be called "Western Conference" and "Eastern Conference", but the players will still be those from the team you select.

Sneak Peek

If you want to get a better look at the cheerleaders who appear during halftime, just hold the L1, L2, R1 and R2 buttons. The distracting game statistics will disappear.

THE NEED FOR SPEED

Hidden Tracks

Choose "One Player" from the main menu
and select "Tournament" mode. Choose
"Password" at the tournament menu and
enter the password "TSYBNS", then press
START. With this code in place, you can
now return to the main menu and choose
any game mode. When you reach the

"Race Location" menu, you'll find a new,
secret track called "Lost Vegas".

"Rally" Tracks

With the cheat password in place, high-
light any track and hold the L1 and R1
buttons. You'll see the name of the track
change to "Rally"; this changes the pave-
ment to a slippery dirt road like those in
Sega Rally. If you hold L1+R1 while the
"Rusty Springs" track is highlighted, you'll
gain access to yet another secret hidden
track; this one's a desert course called
"Oasis Springs".

Secret Car

With the "TSYBNS" password in place as
described, choose any game mode and ac-
cess the car select screen. Highlight any car
and hold L1+R1; now you can choose the
top-secret "Warrior" car, a lightweight, fu-
turistic vehicle that can zoom from zero to
60 in 3.5 seconds flat.

Arcade Mode

Again, with the "TSYBNS" password in
place, get to the "Race Location" menu
and highlight the "Segment View" (or lap-
select) box. Hold L1+R1 and you'll see the
words "Arcade Mode" appear. Start the
game in Arcade Mode and you'll find that
the game plays much more like a *Ridge*
Racer-style arcade game instead of a full-
on simulation.

Machine Gun Horn

Choose the Head-to-Head mode on the
Race Type Screen. Select your vehicle, then
pick your computer opponent's car. After
selecting your opponent's vehicle, press
and hold L1, O, □ and diagonally Up/Left
on the D-pad until the race starts. You can
now blow everything out of your way by
pressing Up to honk the horn. The noise it
produces will sound like a machine gun.

NEED FOR SPEED II

Extra Camera Angles

When the "Loading..." screen appears be-
fore a race—with the course map on the
screen—press and hold L1 + R2 + Δ + O.
Do not release the buttons until your car
appears on the track. Now press the Δ
button to cycle through the different cam-
era angles; you'll find that there are now
nine different camera settings instead of
the usual four.

Cheat Passwords

Enter any of the following passwords from
the options menu to activate different
features:

Access Ford Indigo car—L I L Z I P

Access Monolithic Studios track—

S H O T M E

Upgrade all cars to Pioneer engines—P O

Secret Vehicles

Each of the following passwords will give
you access to a secret vehicle, but they're
different from the Ford Indigo code
(above) because you don't get to choose
the secret vehicles from the car select
menu. Instead, pick any car and set up all
of the other race options. Finally, go to
the options menu and enter one of the
following passwords, then go immediately
to the "Race" option at the main menu
and you'll start the race with the secret ve-
hicle you picked:

Army Truck—A R M Y M E

To give Player 2 a secret vehicle, just
change the last letters of any of these
codes from "M E" to "U". For example, if
you want to play in two-player mode with
two army trucks, enter the password
"A R M Y M E", then enter the password
"A R M Y U", then start the game.

Cheat Codes

Watch the game's loading sequence care-
fully; when you see the Infogrames logo
begin to appear on a white background,
quickly press Up, Down, then immediately
hold the Δ button and press O. You
should see the words "LOCK OFF" in
green letters, right in the middle of the
screen; this allows you to access all of the
tracks in Arcade or Championship mode.
As soon as you see the words "LOCK OFF,"
if you release the Δ and O buttons imme-

diately you can enter any or all of the additional codes shown below; these buttons must be held down before the Infogrames logo is colored in and you must continue to hold them until the memory card message appears:

- Hold **L1** and the words "TIME OFF" will appear; now the race won't end if the timer runs out in Arcade mode.

PARAPPA THE RAPPER**Rapping Tips**

• If you hold one of the action buttons down, then press another one, the word that's associated with the first button will come out automatically as soon as you take your finger off the second button. Try this at the beginning of Stage 1, Lesson 3: While holding the **△** button, press and release the **O** button repeatedly in a steady pattern. Parappa should say, "Kick, Punch, Kick, Punch, Kick, Punch" and so on, even though you're not pressing the **△** ("Kick") button more than once. This trick also doubles your speed; instead of getting one word for each button press, you're effectively getting two. Use this technique when you're "Rappin' Cool!" for lots of extra words and bonus points.

• One of the game's best-kept secrets is that it's possible to use the D-pad to change the order of the words that come out of Parappa's mouth. This only applies in lessons or stages where more than one word is assigned to a single button; for example, during Lesson 5 in Stage 3, you say, "I have never sold everything, everything" using only the **X** button. If you hold **Left** on the D-pad and press one of the buttons, it will "reset" the list of words that are associated with that button to the first word in the series. Similarly, if you hold **Right** on the D-pad while you're in the middle of that series of words, it will "hold" that word and let you repeat it as many times as you wish; when you release **Right**, you can continue with the rest of the series of words that are assigned to that button. Depending on when you apply the D-pad, you can make Parappa say, "I have never, I have never sold everything" or even "I

have never, never, never sold everything." This is an important trick; not only does it make it easier to break the "Cool!" barrier in certain lessons, but if you use this method to mix up your raps when you're freestyling in "Cool!" mode, you'll earn more points!

Rocket Launcher

If you finish the game in less than three hours, your saved game will allow you to start a new game with an all-powerful rocket launcher; it has infinite ammunition and can destroy just about everything with one shot.

Special Key

In the room with the large mirror, there's a locked closet that seems impossible to get into. To get the special key that unlocks this door, you must finish the game with two characters rescued (e.g. if you're playing as Chris, you must have Jill and Rebecca with you when you leave the mansion; Jill must rescue Chris and Barry.) If you do this, your saved game will allow you to start a new game with the special key. Inside the closet, you can change your character's clothes.

RESIDENT EVIL: DIRECTOR'S CUT

Easier "Advanced" Mode

Choose "New Game" from the main menu, then highlight "Advanced" and hold Right on the D-pad for about four seconds; you'll see the word "Advanced" turn green. Now start the game in "Advanced" mode and you'll find that it's slightly easier than usual.

RESIDENT EVIL 2 PREVIEW (DEMO DISC)

"Rookie" Mode

Highlight "New Game" at the main menu and hold Right on the D-pad for about four seconds; a top-secret difficulty select option will appear, allowing you to play the game in the slightly easier "Rookie" mode.

**RESIDENT EVIL 2****Secret Photo**

In the S.T.A.R.S. office, check Wesker's desk—it's the one right in front of the S.T.A.R.S. logo. You'll get a message that says, "It's trashed. Someone must have searched the desk..." Continue to check this desk over and over again; on the 50th try, you will obtain a film. Take the film to the darkroom to develop it and you will get to see a secret photo of Rebecca from the original *Resident Evil*.

Alternate Clothes

Start a game in Normal Mode and go through the city area (including the gun store and the bus) without picking up any items. If you go to the alley by the stairs in the R.P.D. lot, you will meet a very special zombie: It's Brad Vickers, the helicopter pilot from the original *Resident Evil*. Enter the police department and get the rifle/grenade launcher from the S.T.A.R.S. room, then go back out and kill Brad (you can't take him down with your normal gun). Next, check his body; you'll find a special key. This key opens the locker in the darkroom; if you open it, you will be able to change into a different set of clothing at any time.

Bonus Weapons

If you beat Scenario One with an "A" or "B" ranking and your total playing time is under two-and-a-half hours, you will get a rocket launcher with infinite ammo for your next game. If you beat Scenario Two with an "A" or "B" ranking in under three hours, you'll get a sub-machine gun with infinite ammo for your next game. If you beat Scenario Two with an "A" or "B" ranking in under two-and-a-half hours, you get both of these "infinite ammo" weapons plus a Gatling Gun, also with infinite ammo. You'll find the bonus weapons in the chest.

Secret Character: Hunk

To play as the bio-suit guy from the opening movie, you have to achieve an "A" Ranking in either Leon or Claire's Scenario Two; to do so, you must beat the scenario in under three hours without using any of the "infinite ammo" bonus weapons (see above). When you finish doing this, you will be asked to save a second time after the normal Scenario One/Scenario Two save. The saved game will say "Hunk," choose this to play as him.

Secret Character: Tofu

To play as a giant tofu, you must follow the instructions for playing as Hunk (see above). Once you've done this, you must continue playing until you have chained three sets of Scenario Ones and Scenario Twos (a total of six games). When you finish doing this, you will be asked to save an additional time. The saved game will say "Tofu," choose this to play as him. (Note: After you qualify for the "Hunk" save, you don't have to continue to get high rankings in order to access Tofu; just keep playing and always remember to save.)

RESIDENT EVIL 2 (DUAL SHOCK VERSION)**Extreme Battle Mode**

Play through the game with either character and complete Scenario 2. After the credits roll, you will be rated as usual and a message will tell you that there is another mode. You will be asked to save the regular game and then it will ask you to save a second time for the Extreme Battle data. Extreme Battle mode can then be accessed by calling up the Load screen and selecting the EX Battle data from the Arrange Mode menu. If you're lucky enough to have kept a Scenario 2 save on your memory card from the original *Resident Evil 2*, you can use that with the Dual Shock version and simply complete the game to get Extreme Battle. When you beat the first level of Extreme Battle mode, you will earn the ability to play as Ada Wong; you can play as Chris Redfield if you beat the second level.

RIDGE RACER**Extra Cars**

If you earn a "perfect" in the *Galaxian* loading game by destroying all of the enemy ships before they fly away, you'll get eight extra cars to choose from.

Reverse Tracks

When you have completed the whole game—time trials and all—you'll earn the right to race on four new tracks, which are really the existing four tracks driven in the opposite direction.

Mirror Mode

When you start a race, drive forward a bit, then spin around and head back to the steel wall that says "Wrong Way". If you're going fast enough, you'll pass right through the wall to race in "Mirror Mode".

Galaxian 13

The game's toughest secret is the mysterious black car, which appears by the side of the road after you've completed the game—both forward and reverse tracks—in its entirety. If you can beat the black car by staying in front of him and allowing him to rear-end your vehicle all the way to the finish line, you can drive the car yourself and even save it on your memory card.

RIDGE RACER REVOLUTION**Extra Cars**

If you earn a "perfect" in the *Galaga '88* loading game by destroying all of the enemy ships before they fly away, you'll get eight extra cars to choose from.

Buggy Mode

If you earn a "perfect" in the *Galaga '88* loading game by destroying all of the enemy ships with exactly 40 shots, you'll get the eight extra cars as described above, but all of the cars on the track will be changed into funny-looking buggies when you start the race. This is very difficult to do, but here's a cheat that makes it easier: During the *Galaga '88* game, press and hold Down + L1 + SELECT + Δ + R1; all of the enemy ships will be automatically destroyed with exactly one shot each.

Secret Cars

Once you place 1st in all three courses in normal race mode, three super cars will appear to race against you in the Time Trial mode as follows:

Novice—13th Racing Car
Intermediate—13th Racing Kid
Expert—White Angel

If you can beat these cars in the Time Trial mode, they will become available for you to race with in all game modes.

Spinning Mode

Choose "Time Trial", then at the main menu, highlight the "Start" box, hold the Brake button and press the Accelerator button; continue to hold both buttons down until the race starts. (You'll have to press the Accelerator twice because the Brake button will take you back to the title screen.) Now you're playing in Spinning Mode. When you reach a turn where it's possible to spin your car 360°, the words "Spinning Point" will appear on the screen.

Try to spin your car around; it helps if you choose a vehicle with a low "grip" rating. When you finish the turn, a toy car will drive across the screen and show you your total points for that spin. After the race, watch the replay to see a chart that shows your score on each Spinning Point along with your total for the entire race.

Super Street Fighter II Turbo: Play as Akuma

Hawk for four seconds, then Guile for four seconds, then Cammy for four seconds, then Guile again for four seconds, then highlight Ryu or Ken for four seconds, then hold down all three PUNCH buttons and the START button. If your timing is right, you'll see a mysterious silhouette on the match-up screen. You're playing as Akuma.

Super Street Fighter II Turbo: Play Against Akuma

Play a one-player game in Arcade Mode at any difficulty level without losing a single match; you must also try to defeat each opponent as quickly as possible. If your total playing time is low enough by the time you reach the final battle against M. Bison, you'll see Akuma jump into the screen and defeat Bison for you; now you must fight Akuma instead.

Super Street Fighter II Turbo: Remove Super Meter

At the character-select screen, choose your fighter with the \square (Jab) button, then release \square and quickly enter one of the following codes before the airplane flies across the map:

For Ryu, Ken, Blanka, Zangief, Cammy, Fei Long, Balrog or M. Bison—Press Left and Right repeatedly on the D-pad while repeatedly tapping \square
For E. Honda, Chun-Li, Guile, Dhalsim, T. Hawk, Dee Jay, Vega or Sagat—Press Up and Down repeatedly on the D-pad while repeatedly tapping \square

If you've done this correctly, your character's color will change and you'll hear a shout to confirm. When the fight begins, you'll be playing without a Super meter.

Street Fighter Alpha 2 Gold: Play as Cammy
To access Cammy in Street Fighter Alpha 2 Gold, you must play as M. Bison in Arcade mode and beat the game with a score that's high enough to take the #1 position on the High Score list. Once you've done this, enter your initials as "C A M"; now you can play as Cammy—in "Versus" mode only—by highlighting M. Bison at the character-select screen and pressing the START button twice.

This cheat works in all modes except the "Movie Battle". To do it, you must press Up, R1, Down, L2, Right, L1, Left, R2 as fast as humanly possible at the character-select screen. If it doesn't work, it's because you didn't do it fast enough, so try again. TEKKEN

Galaga Secrets

To continue playing the *Galaga* loading game as many times as you wish, just press the **SELECT** button whenever the screen displays your "Number of Hits." If you score a perfect 40 ships in the first round, the game will automatically continue to the next wave; there are eight waves in total. If you don't like using the D-pad to move your ship, you can use the **L** and **R** buttons on top of the controller. Holding the **Δ** button gives you rapid-fire.

Double Ships

There are two ways to get twin ships in the mini-Galaga game.

Method 1: If you destroy a perfect 40 ships in the first wave with a total time of 18.5 seconds or less, you'll get the double ships for the second wave through the rest of the game.

Method 2: When you first load the game, wait for the PlayStation logo to appear, then hold **Up, L1, Δ** and **X** on Controller 2 until the *Galaga* game starts. Now you can use the twin ships on the first wave.

Secret Character: Devil Kazuya

To play as Devil Kazuya, you must score a perfect "40" on all eight waves of the *Galaga* game without using more than one continue and without using Method 2 (described above) to get the twin ships. After you've done this, start the game in Arcade mode, highlight Kazuya and press the **START** button to choose his evil alter-ego.

Play as the Boss

You've probably noticed the extra characters that you can earn in *Tekken* by beating the game in Arcade mode. Each of the game's eight characters will "release" one additional fighter when you beat the game with him or her. If you beat the game with all eight characters, you'll earn an additional eight hidden characters to use in Arcade or two-player mode. To earn the big boss, Heihachi, as a playable character, you must beat the game with any character in Arcade mode without continuing. You may find it easier to do this if you visit the option menu and set the round time to 20 seconds; it also helps to choose one-round battles.

TEKKEN 2

Hidden Characters

When you beat the game in one-player mode with a particular character, the "boss" character you defeated will become available as a playable character in all game modes. When you play in one-player mode as one of the "boss" characters, you'll face Kazuya; beat him and he, too will become a playable character. Beat the game as Kazuya and you will face Devil; defeat him to add Devil and Angel to your ranks. Finally, when playing in one-player mode, you must win Stage 3 with very little energy left; you'll hear the announcer say, "Great!" if you've met this requirement, and your next opponent will be Roger or Alex. Defeat him and you'll have all of the game's characters at your command. To play as Alex, highlight Roger and press either **Kick** button; to choose Angel, highlight Devil and press either **Kick** button. Note: You must have earned all of these characters to perform any of the following tricks:

- Kazuya's Purple Suit
Highlight Kazuya and press **START** to see his purple suit. This works in every game mode except Team Battle and can only be used by one player in a two-player game.
- Super-Deformed Characters
Hold the **SELECT** button before the "Vs." screen appears; your character will be inflated to super-deformed size; if you do this trick after you've already done it in the previous battle, you'll be even bigger.

• **Punch-Out!!** Mode
Hold the **L1** and **L2** buttons when choosing a character in any one-player mode. You'll be playing in a semi-first-person perspective with your character drawn in green wire-frame, just like Nintendo's classic *Punch-Out!!* arcade game. There's a small gauge near the upper left corner of the screen that helps you to judge your distance from your opponent.

Super Juggie Mode

Hold **SELECT** and **Up** on the D-pad before the "Vs." screen appears; when the round starts, you'll hear an explosion sound. Now whenever you use an attack that makes your opponent go up in the air, they will go much higher, which makes juggling more interesting.

TEMPEST X3

Power-Up Swarm

At the start of a stage in "Tempest X3" mode, shoot the first creature and fire your superzapper before the power-up reaches the top of the playfield; do not collect this first power-up. Now play normally and you will receive power-up items from nearly every enemy you shoot.

Cheat Codes

At any time during the game—at the title screen, menus or during the game—hold **L1, R1, Δ, O, START, SELECT** and **Up/Left** on the D-pad. You'll hear a loud grinding noise to indicate that the master cheat code is in place. Once you've done this, you can do any of the following tricks during the game:

- Level Skip—Hold **R1** and tap **L1**, then fire your superzapper. The screen will be cleared and you will advance to the next stage immediately.
- Trippy Mode—Hold **L2 + R1 + Δ + X** and press **Up**. The graphics will leave freaky trails of light on the screen.
- MOD Music—Hold **L2 + R1 + Δ + X** and press **Right**. The music will change to the .MOD music when you start the next stage.
- Remix Music—Hold **L2 + R1 + Δ + X** and press **Left**. The music will change to the remix music when you start the next stage.
- A.I. Droid—Hold **L2 + R1 + Δ + X** and press **Down**. You'll hear the A.I. droid say "Attack!". Now if you can make it to through the current stage without losing a life or using the Level Skip cheat, the first power-up that appears in the next stage will give you the A.I. Droid.

Hidden Game Modes

Play until you earn the top spot on the High Score table; you must earn over 500,000 points to get there. Once you do this, the game will ask you to enter a five-character name in addition to the usual three-letter initials. Enter your name as "H_V_S_"; those are spaces in the second and fourth positions. Save the game to your memory card. Now you'll find two new game modes at the main menu: "Tempest Plus" and "Tempest 2000".

TEN PIN ALLEY

When your opponent is bowling, wait until the bowling meters appear, then hold **L1 + L2 + R1 + R2** on your controller and press **Δ, □, O** or **X**; each button corresponds to a different taunt.

X-MEN VS. STREET FIGHTER**Secret Options Menu**

At the main menu—the one that says "Battle Mode/Vs. Mode/Training Mode" etc.—press Δ, Δ, Right, O, L1; you must enter this code very quickly. If you've done it fast enough, you will be taken immediately to a secret "EX Option" menu with two special options:

• "Game Mode" lets you use a limited version of the "tag team" option from the X-Men vs. Street Fighter arcade game. To do this, set "Game Mode" to "Original", then start a game in Vs. Mode. At the character-select screen, Player 2 must choose the same characters that Player 1 has chosen, but in the opposite order. (For example: if Player 1 chooses Cyclops, then Ryu, Player 2 must choose Ryu, then Cyclops.) If you've done all this correctly, when the fight starts you'll see that each of the four characters has his or her own energy meter. During the match, if you press Fierce Punch + Roundhouse Kick simultaneously (that's L1 + R1 if you haven't changed the game's default control configuration) you will "tag out" and switch places with your partner, who enters with an immediate attack on your opponent.

• If you set the "Hyper Combo Gauge" option to "Full," your Hyper Combo Gauge will fill up to Level 3 automatically when playing in Vs. Mode.

Play as Apocalypse

First, beat the game in Battle Mode at any difficulty setting without losing a single round. Once you've accomplished this, start a game in Vs. Mode. At the character-select screen, highlight Akuma, hold the SELECT button and press any action button. Apocalypse will appear as your chosen character.

Here are some of his moves:

Alternate Character Color/Texture

Press Up + any button when choosing your fighter at the character-select screen.

Additional Color Choices

After you have beaten the game at any skill level with any number of continues, go to the character-select screen and hold SELECT. Now push any other button (including the L and R buttons) to choose different character colors.

Watch Mode

To watch the computer fighting itself, hold L1+L2+R1+R2+Down on Controller 1 and choose "VS Play."

Stage Select

When your total playing time passes the 30-hour mark, you'll hear the announcer say, "Wow!" when you return to the title screen. Now you have the option to choose any stage from the character-select screen in "VS Play" mode.

Hidden Comic Strip

First, beat the game in "Easy" mode without continuing. Once you've done this, highlight "Option" at the title screen, then grab Controller 2 and hold L1+L2+R1+R2+START+SELECT; you'll see a secret NECO comic strip.

Secret Bosses

To fight against XTAL, you must play all the way through the game with all eight characters—including ZULU—without using a continue.

To fight against NECO, you must play through the game as XTAL without using a continue; then, when the XTAL icon comes down from the top of the screen at the pre-fight map screen, hold L1+L2+R1+R2, then SELECT, then START. The text box will say "XTAL" but you will really be fighting against NECO.

Boss Codes

To play as XTAL, you must defeat the game at the "Normal" or "Hard" difficulty setting without using a continue; you must also defeat XTAL.

To play as NECO, you must play as XTAL or ZULU and defeat the game at the "Normal" or "Hard" difficulty setting without using any continues.

Flat-Shaded Turbo Mode

The coolest Zero Divide cheat has two steps: You must play the game until your total playing time is over 100 hours, and you must have performed a five-hit combo at any time. Once you've met both of these requirements, go to the Option menu, highlight the "Match Point" option, hold L1+L2+R1+R2 on Controller 1 and press Down. You'll see the words "Shadow Obj" appear in the corner of the screen, just above the save counter. With this option in place, start the game and get ready for a surprise. The "Shadow Obj" option allows you to play the game with characters made of flat-shaded polygons instead of texture-mapped polygons; it also eliminates the background graphics. Not only does the game look different this way, but because the PlayStation is freed up from having to process all of those flashy texture maps, you'll find that the game's speed has been quadrupled! To disable the "Shadow Obj" option and return the game to normal, just highlight "Match Point", hold L1 + L2 + R1 + R2 and press Down again.

Hidden Game

Put Zero Divide into your PlayStation, hold the SELECT and START buttons on Controller 2 and turn the POWER switch on. Continue to hold the buttons down while the game loads; you'll get a hidden version of Phalanx, a Super NES shooter. Use Controller 2 to play.

POKEMON

(Red, Blue and Yellow versions)

Celadon "Rocket Game Corner" Tips

• Slot Machines—Watching the reels carefully can increase your odds of getting a match. For example, watch for a particular image or number to scroll by, and hit the **A** button as soon as it appears for each reel. The chances of you lining up another image is fairly high, as long as you don't get dizzy staring at the tiny Game Boy screen. Although it's claimed that the slot machines inside this casino have different odds, watching the reels works on all of them.

• Secret Coins—After speaking to the other people in the casino to get coins, you can discover secret coins lying around the floor of the Game Corner by moving around and pressing **A**.

Evolution Tip

Some Pokémon can only be evolved through the use of elemental Evolution Stones. It is a bad decision to evolve your Pokémon right away, since there may be some attacks it can only learn in its Basic Evolution stage that it would never learn if you evolved it right away.

Hidden Machine Tips

• Hidden Machines, or HMs, are permanent. If you teach them to one of your Pokémon, they will never forget it; therefore, don't teach weak HM skills like "Cut" to a Pokémon you intend to use as part of your main party.

• HM 01 (Hidden Machine 01): Cut—When you use Cut in a grassy area, you will clear away four squares of grass. Using this method is one way to avoid random encounters with wild Pokémon.

Master Ball Tip

The Master Ball is an ultimate Pokéball that can capture any Pokémon instantly. It can only be used once, so don't waste it on a common Pokémon. It should be saved so it can be used to capture Mewtwo or one of the three Legendary Birds.

Fight Mewtwo

In order to fight Mewtwo, you need to gain access to the Unknown Dungeon. You must defeat the Elite Four before the man blocking the entrance will allow you through. Also, you must NOT reset your game after you've beaten it. Wait for the credits to finish, then go back to the Start screen by pressing **A**. Fly to Cerulean city, then use a Pokémon that knows Surf to get to the Unknown Dungeon, which lies to the northwest of Cerulean city. Right before you fight Mewtwo, save your game. That way if you lose or if Mewtwo faints, you can quickly reset the game. You should also do this before fighting other "one-time-only" Pokémon like Zapdos, Articuno and Moltres. When you

fight Mewtwo, either use the Master Ball immediately or use sleep attacks and a lot of Ultra Balls.

Quick Experience Gain

If you have a group of strong Pokémon with one weak Pokémon, you can level up your weak Pokémon quickly by letting it share experience with a stronger one. Put the weak Pokémon at the top of the list so it always goes out into battle first. Switch it immediately with a strong Pokémon and the two will split the experience points in half. This is an excellent way to level up Pokémon like Magikarp, which are useless before they evolve.

Rare Candy Tip

Gaining levels by using Rare Candy on your Pokémon is not as effective as leveling up your Pokémon normally. Pokémon who legitimately gain experience improve their statistics more dramatically than Pokémon who only used Rare Candy, so it's not a good idea to use a lot of Rare Candy on one Pokémon at once, since it will be weaker than other Pokémon that are the same level.

ALBERT ODYSSEY Secret Side Quests

• After you defeat Valerian the vampire—but before you go to the cave to get Gryzz—head southwest of Solace and walk around to the other side of the mountain. You'll find a cave just south of Gadel; inside is a woman with a witch's hat who will tell you about her long-lost husband. Next, go back to Gigar. Inside one of the houses, you'll find an old man who talks about the pendant he's wearing; keep talking to him until he repeats himself, then return to the woman in the cave and talk to her. Finally, head back to the man in Gigar; when you talk to him, you'll be sent back to the cave where he will be reunited with his wife.

Explore the area beyond the graveyard and you'll find what appears to be an abandoned town; it won't be visible from the outside. In the north end of the town, you'll meet Olivia, but you must fight a huge robot called Iron Giant. Once you've defeated him, take Olivia back to Mycent for a valuable prize: You'll be given a Quest Pass which gives you a 20% discount at all of the shops for the rest of the game.

• After you complete the four towers—but before you enter Fargasta Tower—go to the town of Solace and enter the temple there. Speak to Leos and she will ask you to spend the night; you should agree. During the night, you'll find everyone frantically searching for Eka; you'll find her at the entrance to the town.

You'll hear a chorus of voices shouting to confirm the code. Now advance to the Main Menu and you'll find a new option called "League Mode". Here are rough translations of what the menu items say at the League Mode screen:

- Game Start: Start a game in League Mode. When you choose this item, you'll

get a menu that asks you to select the names of the two people who will be competing. If you have not registered your name for League Mode play (see below) you must choose name 6, a generic name which will allow you to play without any records being saved. The last two items at the bottom of the play menu are "View Records" (see description below) and "Return to League Mode Menu".

• Name Entry: Choose from one of five save slots and enter your name. Move the cursor to the "ABC" item and you'll be able to enter your name with the standard alphabet instead of the default Japanese Hiragana characters. The three-character item in the upper right corner says "back-space" and the one in the lower right corner means "done".

• Delete Name: Use this option to remove any of the registered names from the machine's memory. When you select a name to delete, a small menu will come up which asks you to confirm if you really want to remove the selected player and all of his or her records from the league; choose the top item to say "Yes".

• View Records: Use this option to check your stats. The first screen shows your winning percentage; highlight your name and press **A** or **C** to view your win/loss records against each player.

• View Records / Return to Main Menu: The next-to-last menu item brings up a quick description of how the League Mode works; there's really nothing here that you can't figure out on your own just by playing the game in League Mode for a while. The last option at the League Mode menu takes you back to the Main Menu.

Select Gaia, Sho and Cupido

There are two ways to play as these characters. The harder way is to beat the game on normal settings; the easy way is to go to the "Press Start" screen and enter the following code: **Up**, **Down**, **X**, **B**, **A**, **Y**, **C**, **Z**, **START**. Gaia and Sho are now accessible at the character select screen. To play as Cupido, highlight Sho and hold **Up** on the D-pad while selecting him. Note: Hidden characters will appear in all modes except Story Mode.

Secret Screens

Clockwork Knight 2 uses the internal clock of the Saturn to send you secret messages on special dates. Try setting the Saturn clock to January 1, February 14 or December 25 to get different title screens.

Control the Level 1 Boss

It's tough to get this code to work, but if you use the 999 Lives and Stage Select cheats, you'll have a better chance at trying. Here goes: As soon as the snake boss appears in the "Kid's Room" boss stage, you'll see a spotlight appear on him and he'll yell into the microphone. While the spotlight is on, quickly press **Left, Right, B+C, Right, B+C** on Controller 2. If you can get this code to register, you'll be controlling the boss with Controller 2. Here are the controller commands:

D-pad **Left, Right**—Move the boss left or right

D-pad **Up, Down**—Move the boss closer or farther away

Z, C—Move the boss up or down

A, B, Y, L, R—Make boss noises

X—Toggle the room light on or off

If you press the **START** button on Controller 2, the computer will take over and go after Pepperouchau again.

Control the Level 2 Boss

You can also control the monkey boss in the "Study Room" level. When the piece of paper first transforms into the monkey, he'll put his hands in the air and grunt three times. As soon as he starts to grunt, press the **START** button on Controller 2 and hold it down until he's finished grunting. Now you can control the boss with Controller 2. Here are the controller commands:

D-pad **Left, Right**—Make the boss face left or right

A—Make the monkey beat his chest

B—Pick up Pepperouchau and slam him to the ground (if you're close enough)

C—Jump into the air and land on Pepperouchau

At the *College Slam* title screen—while the words "Press Start" are flashing—press **Left, Up, B, Up, Down, Up, Right, C**. You'll hear a faint "plink" sound to confirm the code. Now when you choose your team, keep pressing **Down** when you pass Wake Forest and Wisconsin to find nine secret fraternity teams. With this code in place, go to the "Edit Teams" option and choose either "Daytona Beach" or "Palm Springs"; you'll find a new option called "Edit Frat" that allows you to change the Greek letters on the team insignia.

At the main title menu, highlight "Deep Scan", hold **X + Y + Z** and press **START**.

When you enter the *Deep Scan* mini-game, you'll see that the logo now reads "Hyper Deep Scan". This makes the game much more difficult, with dozens of enemy submarines appearing on the screen at the same time. You can't earn extra credits to play *Die Hard Arcade* in this mode, either.

DIE HARD TRILOGY

Cheat Menu

While the game is loading, a copyright screen will appear with white letters on a black background. As soon as you see it, quickly press **C, A, B, B, Y, C, A, B, B, Y** before it disappears. The cheat menu allows you to warp to any stage, become invincible (in *Die Hard* and *Die Harder*) or get infinite lives (in *Die Hard* with a Vengeance).

GAME SHARK

Play Japanese Discs

Normally, the American Saturn cannot be used to play Japanese Saturn software; the operating system refuses to recognize an import disc as a CD-ROM and the game will not load. Choose "Start Game" from the Game Shark main menu, then highlight "Start Game Without Enhancements. Now hold down the **X, Y** and **Z** buttons and press **START**; the game will magically load just as if it were being booted on a Japanese Saturn.

GOLDEN AXE: THE DUEL

Vs. Mode Shortcut

When playing in Vs. mode, you can take advantage of a hidden feature to cut down on the game's loading time and get you back into the action more quickly.

Here's how it works: When a match is over and the words "Wins" appears on the screen (e.g. "Keel Wins"), press **START** to pause the game, then press the **L** button. A small menu will appear that allows you to choose the fighters for the next battle. Select your characters, then hit **L** again and unpause the game. After the point tally, the game will go to the loading screen—but instead of returning to the full-sized character-select menu, you'll go straight into another match with the characters you chose from the mini-menu.

Magic Attacks

To perform your character's Magic Attack, knock the little elves who pass by and pick up the potions that they drop. When you have five potions, push **X+Y+Z** to activate the magic attack power, then perform the move listed below while your character is powered up. Note that all of these moves are shown as if your character is facing to the right; if you're facing left, just reverse the left/right commands.

Kain Blade's "Firestorm": → ↓ ↘ → ↗ + X, Y or Z

Milan Flare's "Bloody Tempest": Hold ↓, then ↘ → ↗ + A, B or C. Press ↓ + X, Y or Z on the way down.

GUARDIAN HEROES

Cheat Mode

To access a Debug feature, choose "Option Mode" from the title screen. When the Options menu appears, highlight "EXIT" and hold the **X**, **B** and **Z** buttons. Here's the tricky part: While holding those but-

tons down, press and continue to hold **Down** on the **D-pad**, then quickly tap the **A** button while the "DIP Switch" option is highlighted. Note that you must tap the **A** button before the cursor starts to move down again—remember that you're still holding **X+B+Z+Down**—and you must release the **A** button immediately after you press it, before the DIP Switch menu appears.

If you've done this correctly, you'll find three new options at the dip switch menu. Turn the "Enemy Level Disp." option on to see the experience levels of all enemies in the Story Mode. With the "Next Exp. Disp." option on, you'll get a red-and-black "Next" indicator on the screen in Story Mode that saves you from having to pause the game just to find out how many experience points you need to go up a level. Best of all is the "Debug" option; turn this on to gain access to the following features:

- A "Test Mode" option will appear at the Options menu; this allows you to see any of the game's seven different endings.

- In Story Mode, when the character select menu appears, your character will have a level of 200; you'll also have 200 bonus points to fully max out your strength, vitality, intelligence, mental powers, agility and luck ratings.

- In Story Mode, a stage-select menu will appear after you choose your character.

- In Story Mode, you can refill your life points at any time by holding **X+Y+Z** and pressing **Up**. (If you hold **X+Y+Z** and press **Down**, you'll die instantly.)

- In Story Mode, you can skip to different scenes using the following commands:

Hold **R** and press **START** to skip ahead one event

Hold **R+A** and press **START** to skip ahead two events

Hold **R+B** and press **START** to skip ahead three events

Hold **R+C** and press **START** to skip ahead four events

Hold **L+R** and press **START** to skip back one event

Hold **L+R+A** and press **START** to skip back two events

Hold **L+R+B** and press **START** to skip back three events

Hold **L+R+C** and press **START** to skip back four events

- In Vs. Mode, you can choose from any of 45 different characters, including all of the heroes and enemies from the whole game.

- In Story Mode and Vs. Mode, if you pause the game and tap the **L** button, you will see boxes drawn around the characters that show how the game's collision detection works: if an enemy touches the box, it registers a hit. If you pause and tap **L** a second time, the boxes will be three-dimensional. Pause and tap **L** a third time to remove the boxes.

- If you have both the "Debug" and the "Next Exp. Disp." options turned on, the red-and-black meter in Story Mode will display your karma points instead of experience points.

GUNGRIFON

Cheat Codes

Each of the following codes should be entered at the main title screen, while the words "Press Start Button" are flashing yellow and white. Each of these codes ends with the **START** button, which takes you into the main menu, so if you want to use more than one cheat at the same time, just enter a code, then choose "Main Game" or "Exercise" and press the **B** button to cancel out of it; the game will then return to the main title screen so you can enter another cheat. All codes should also be entered quickly.

Invincibility—Left, Right, **B**, **C**, **C**, **START**. Entering this code will make you invincible.

Stage Select—**Y**, **Y**, **A**, **Y**, **Y**, **START**. With this code in place, you'll be able to choose any stage in the Main Game.

Infinite Jumping Ability—**Up**, Right, Down, Left, **Z**, **START**. This code disables your mech's jump meter. The jump energy will never be used up, so you can jump as often as you like.

Infinite Ammunition—**B**, **B**, **B**, **C**, **START**. This code gives you infinite 120mm ammunition for your main gun; the weapon status window will always show 80 rounds remaining no matter how many times you fire.

See the Ending—Down, Up, Right, **A**, Left, **START**. Enter this code, then choose "Main Game" to see the ending sequence.

Tackle Attack—Right, Right, **B**, **C**, **A**, **START**. This cheat code allows you to attack your enemies by running into them. However, your mech will also take damage if you use this attack.

Double Hit Points—**X**, **Y**, **Z**, Up, Down, **START**. Your initial hit points will be doubled. This code also doubles your maximum hit points.

Turret Lock—**B**, **B**, **B**, Up, **C**, **START**. If you rotate your mech's turret with this code in place, the turret will not automatically return to the forward position when you release the **L** button.

Change Height—Down, Left, **C**, **C**, **START**. When you enter this code, you can adjust the height of your mech at any time with the buttons on Controller 2. Press **Z** on Controller 2 to go up, **C** to go down or **A** to reset to the default height.

Disable Targeting Cursor—Left, Right, **C**, **A**, **START**. This makes the game more difficult by disabling your mech's targeting cursor.

Disable Radar—**B**, **B**, **B**, Down, **C**, **START**. This makes the game more difficult by disabling your mech's radar systems.

Hard Mode—Down, **C**, **C**, **A**, **START**. This makes the game much more difficult; your enemies will shoot at you much more aggressively.

Silly Controller 2 Codes
During the game, press Right, Right, **X**, **B**, **A**, **L**, **L**, **R** on Controller 2 to activate the programmers' debugging display, a bunch of basically useless numbers that appear on the screen. With the code in place, press **Y** on Controller 2 to toggle between three different settings, the best of which is "off". Also on Controller 2: In Stages 1 and 10, if you press the **C** button rapidly many, many times, the windmills will eventually begin to turn faster and faster.

When the "Course Select" menu comes up, highlight any of the three tracks, hold the **X** button and press **A**. You'll be sent to a secret rooftop course with no specific path from start to finish. The background scenery will match that of the track you highlighted at the "Course Select" menu. Press the **Y** button to get a pop-up window with an overhead view.

IRON STORM

Cheat Code

When the status screen appears that shows the date before you begin your turn, press **Up, Down, Up, Down, L, A, Z, Y**; you'll hear a trumpet fanfare to confirm the code. Now start your turn and you'll find that you can use the "Make" or "Allocate" commands on any location on the map.

Multiplayer Campaign Mode

When you play *Iron Storm* in Campaign mode, you can't use the "CPU/User Options" menu to give control of the enemy forces to other players. However, if you're in the middle of a campaign and you want to take control of the CPU forces, just select "Sound" from the System menu, highlight the "SE" (sound effects) option and listen to sounds #5 and #66 with the C button. Once you've triggered these two sound effects, return to the system menu and you'll find that you can access the "CPU/User Options" to set up a multiplayer game.

Secret Attack Configuration Menu

When initiating an attack, a statistics

screen will appear just before the animated sequence that shows the attack being carried out. If you press the A button on Controller 2 immediately as this statistics screen appears, you'll get a secret configuration menu that allows you to change the way the animated sequence looks. Change the weather from "Hare" (normal) to "Yuki" (snow), "Ame" (rain) or "Kumori" (overcast), or change the camera setting to any of nearly 100 pre-programmed camera movements (the default "100" gives you the recommended camera setting for that battle).

LAST BRONX

Portraits

To access all of the character portraits, you must play through the Arcade Mode without losing a single round or continuing; do this at the "Normal," "Hard" and "Arcade" difficulty settings to get all three portraits for each character.

Alternate Weapons

To access alternate weapons, you must first earn the third set of "Portraits" by beating the game in Arcade mode at the "Arcade" difficulty setting without continuing or losing a single round (as described above). Once you have access to the third set of portraits, enter one of the following simple codes at the character-select screen:

- For Yusaku, Nagi, Zaimoku, Lisa or Red Eye, highlight the character, hold **Left** on the D-pad and press A or C.
- For Joe, Tommy, Yoko, Kurosawa or Red Eye, highlight the character, hold **Right** on the D-pad and press A or C.

When the match starts, your character will be holding a funny weapon. (Zaimoku has a fish, Yusaku has a toy train, etc.)

Extra Difficulty Settings

Last Bronx uses the Saturn's internal memory to keep track of how many times you've turned the Saturn on with the *Last Bronx* disc inside. Once you've loaded the game 15 times, you'll find three new difficulty settings at the Options menu: Defense (in which the computer blocks a lot), Berserk (the computer goes crazy) and Judo (the computer throws a lot).

LAST GLADIATORS DIGITAL PINBALL

Hidden "Victors" Table

At the title screen, after the words "PRESS START BUTTON" appear, press **X, Y, Z, X, Y, Z, C, B, A, Up, Up, START**. You'll warp immediately to the "Victors" table, a small pinball machine which actually leads to the game credit sequence that plays when you beat the game. You'll only have a short time to play it before the credits roll, but hey, it's something.

If you're some kind of nut who wants to watch the ending credits without playing the "Victors" table, use this code at the title screen instead: **C, B, A, A, B, C, Y, Z, X, Down, Down, START**.

Debug Menu

If you can read Japanese, you might get a bit more out of this cheat than the average American gamer. At the title screen—when the words "PRESS START BUTTON" appear—press **Up, Up, Down, Down, Left, Right, Left, Right, X, B, Z, R, START**. You'll be sent to a strange debugging menu with different windows of information. The only thing you can play with is the small window that says "CPK" (actually, it says "CPK • Player" in Japanese.) Move the arrow/cursor to the "Mount" button and press A; you'll get a list of items in the window above it. To see or hear an item, highlight it with the cursor and A button, then point to the "Play" button and press A. The items that start with the letters "CDDA" are the digital audio tracks from

the CD, and the items that end with "CPK" are full-motion video scenes; most of the others will lock up the Saturn, as will the "CDDA" and "CPK" items as soon as they're done playing.

Cheat Mode

At the title screen, after the words "PRESS START BUTTON" appear, press **Up, Up, Up, Up, A, B, C, Down, Down, X, Y, Z, START**. You'll hear a sound to confirm the code. Now start the game; at any time during play (on any table), hold the X button and press **Up**; you'll see two sets of numbers appear in the bottom right corner of the screen. Change the number on the right by pressing **Up** or **Down** on the D-pad, then press **Z** to trigger one of the current table's special modes; for example, on the "Gladiators" table, each of the following modes can be activated by pressing **Z** when the corner number is set as follows:

- 00—Multiball
- 01—Roman Triumph
- 02—Retiarius
- 03—Bloody Arena (Two-Ball)
- 04—Chariot Races (Three-Ball)
- 05—Extra Ball Lit
- 06—Senator Mystery Lit
- 07—SPQR
- 08—Thracians
- 09—Empire
- 10—Gladiator Show

Experiment with the other tables to find out what each of the 11 numbers can trigger. The only limitation is that you can't trigger one mode if the results of another mode are still in effect. Also, the Saturn will crash after you run out of balls on any table with the cheat mode in place. Heh heh...sorry.

To remove the numbers from the screen, hold X and press **Down**; while the numbers are gone, hold Y and press **Up** to pause or unpause the game without obstructing the screen, or hold Z and press **Up** repeatedly to step through the animation one "frame" at a time.

Secret Scene

Last Gladiators uses the internal clock of the Saturn to play funny tricks on you. Assuming you have entered the date and time correctly at the Saturn's "System Settings" menu, you can see a behind-the-scenes video of the making of the game before the title screen appears if you load the game between 8:00 and 11:00 A.M. At any other time of day, you'll get the standard FMV introduction. If you want to watch this hidden scene at any other time, just change the Saturn's internal time clock at the "System Settings" menu and boot the game.

THE LEGEND OF OASIS

Two-Player Mode

At any time during the game, move Leon to a place where there are no enemies on the screen. Press **Z** to open the Weapon Select window, then hold the L button and press X. A duplicate of Leon will appear; he's controlled by Player 2. To get rid of him, just enter the code again.

LOADED

Cheat Menu

During the game, press **START** to pause, then highlight the "BGM Volume" option at the pause menu. Now press and hold the following buttons in order (you must continue to hold each button down until the sequence is complete): **L, Z, B, X, C, R**. A cheat menu will appear, allowing you to skip the current level or boost your ammo, power and lives. Once this code is in place, you can call up the cheat menu again at any time by pressing L at the pause menu.

(Note: When playing in Arcade mode, you must enter the code quickly because there's a five-second timer on the transmission select screen.) Now start the race and you'll find that your bike—and all of your opponents—have turned into sheep, and the background music will play a deranged version of "Mary Had a Little Lamb."

After Burner II Bonus Options

Choose "Options" from the main menu, then press the **R** button three times at the Options screen; a bonus options menu will appear, giving you the ability to record your performance in the game and save it to the Saturn's internal memory. If you want to watch an *After Burner II* champ kicking butt in a near-perfect game, use the "Trace Load" option to load the recorded game called "Demo," then set the "Trace" option to "Play," start the game and watch it go. This demo also includes all of the messages from the game's "Story" mode (see below).

After Burner II "Story" Mode

During a game of *After Burner II*, players can call up special messages and bonuses that give you the basic elements of a storyline involving a kidnapped princess. This only works at the start of certain stages; to see the messages, you must hold specific buttons down at the very beginning of the stages indicated below; if you have an idea of when each stage is about to end, it's easier to enter the codes because you can hold the buttons down before the game switches from one stage to the next. Here's a listing of the stages and the buttons you need to press; remember to hold the buttons as close to the start of the stage as possible and keep holding them down until the message appears:

Stage 1—Hold **A + B + C**
Stage 3—Hold **A + Z**
Stage 5—Hold **A + B + C**
Stage 9—Hold **A + B + Right**
Stage 11—Hold **B + Left**

In addition to seeing the secret messages, some of these codes will also reward you with 100 missiles (Stages 3, 5, 9 and 11) or bonus points (Stages 11 and 21). Note: If you are using an analog controller in analog mode, use the following chart instead of the above codes:

Stage 1—Hold **A + C**

Stage 5—Hold **A + C**
Stage 9—Hold **A + C + Down/Right**

Also at the Options menu, put the cursor next to "Game Mode", hold **A + C** and press **Left** or **Right** until you see two new settings called "Overseas (Smooth)" and "Japan (Smooth)." If you choose one of the "Smooth" settings, you can play the game at a super-smooth 60 frames-per-second, a screen-refresh rate that's twice as high as the original game's 30 fps.

Play through seven matches without losing a round or using a continue, and get more than three "Perfect" victories. If you do this, "Shin" Akuma will appear before the eighth match as the final boss. If you lose to him, he will consider you to be inferior and he will not re-appear.

When playing in the "Devil's Kitchen" stage, press **START** to pause, then press **A**, **B**, **Right**, **A**, **C**, **A**, **Down**, **A**, **B**, **Right**, **A**. When you unpause, all of the trucks—including yours—will have been changed to tanks.

TOMB RAIDER

During the game, press **START** to pause, then press **Down** and access the passport. Turn to the last page of the passport ("Exit to Title") and press **Z**, **Y**, **Z**, **Y**, **X**, **X**, **START**; you'll hear Lara moan to confirm the code. Now press **A**; instead of returning to the title screen, you'll skip to the end of the current stage.

U

ULTIMATE MORTAL KOMBAT 3

Ultimate Kombat Kodes

To activate three hidden characters in the Saturn version of *Ultimate MK3*, access the "Ultimate Kombat Kode" screen by playing the game in one-player mode and losing. When the screen appears, enter any of the following codes with the **A**, **B**, **C**, **X**, **Y** and **Z** buttons quickly before the timer expires:

Mileena (700-723): Press **X** seven times, **A** seven times, **B** twice and **C** three times.
Ermac (964-240): Press **X** nine times, **Y** six times, **Z** four times, **A** twice and **B** four times.
Classic Sub-Zero (760-520): Press **X** seven times, **Y** six times, **A** five times and **B** twice.

When one of these codes has been successfully entered, a message will appear that tells you that the character you chose is now at your control; you'll find them in the middle of the character-select screen.

Free Play

To earn infinite continue credits, wait for the copyright screen to appear at the beginning of the game and quickly press **Up**, **Up**, **Right**, **Right**, **Left**, **Left**, **Down**, **Down**. This code must be entered very rapidly; if

you're fast enough, you'll hear Shao Khan say "Excellent!" to confirm the code. Now when you start the game, the credit counter will be replaced by the words "Free Play", which indicates that you can continue a losing one-player game as many times as you wish.

Cheat Menu

When the main title screen appears (with the purple skulls in the background) quickly press **C**, **R**, **A**, **Z**, **Y**, **C**, **Y**, **R**, **A**, **X**. You'll hear Shao Khan laugh to confirm the code; make sure you hear him laugh twice, because he usually laughs once at this screen anyway. Now when the stone-turning menu appears, highlight, "Kombat" and press **Up**; a secret "?" option will appear. Press any button to find the secret "Cheats" menu; turn on the "Free Play", "Ermac", "Mileena" and "Classic Sub-Zero" options to get exactly the same results you'd get from Ultimate Kombat Kodes and Free Play code above; turn off "Fatality Time" to be able to take your time when trying to perform fatalities and use "1 Round Match" to start each battle with one round won for each player.

V

VIRTUA COP

Secret Cheat Code

During the opening demo, wait for the Sega logo to appear on a white background, then hold the **C** button on Controller 1 and press **Up**, **Down**, **Left**, **Right**, **Down**, **Up**, **Right**, **Left**, **Up**, **Left**, **Right**. You should hear two separate gunshots at different times during the code to confirm. Now you'll have access to the "Ranking Mode" from the main menu. You'll also get new surprises at the Option menu, including six additional difficulty settings, a "Free Play" option for unlimited credits and a separate "Option Plus" menu that allows you to activate a reverse-angle "Mirror Mode," check game stats with a Bookkeeping function or activate "Gun Select." With the Gun Select option turned on, you can get any gun at any time during the game; simply press the **START** button to pause, then press the **Reload** button to cycle through the different weapons. (If you're using a light gun, just pause, then aim outside of the screen and shoot to change weapons.) Available guns include a "Special" auto-fire weapon that never runs out of ammo. Note: If the Gun Select feature does not work, you must access the Saturn's System Settings menu and delete the *Virtua Cop* saved game file from the system memory. Once you've done this, reboot the game and reenter the code exactly as described above.

See the Ending

Play through the first stage until you reach the final boss with the rocket launcher. When you fire the final shot that kills him, quickly press and hold the **X**, **Z** and **B** buttons. Hold them down until the screen changes; instead of starting the next stage, you'll warp directly to the ending sequence.

Extra Name Entry Time

At the "Name Entry" screen, shoot at the "b/s" (backspace) icon quickly and repeatedly until the timer resets to 99. Now there's plenty of time to enter your initials.

VIRTUA COP 2

Warp to File 4

When the Stage Select menu appears, shoot repeatedly at the red arrow that's pointing down from the bottom of the "Beginner" box. Keep shooting until the timer runs down and you'll warp to the game's final stage, "Stop the Airship Bomb!"

- Hold **Y** to play as Smarty

DIDDY'S KONG QUEST

Music Test

At the "Select Game" menu, choose an empty save slot as if you were about to start a new game; then, when the player select menu comes up, highlight "Two Player Contest" and press **Down** very quickly five times. The Music Test will appear. Press **Right** or any of the four action buttons to advance to the next tune, or press **Left** to go back through the list of names.

Cheat Mode

Access the Music Test as described above, then press **Down** very quickly five more times. A top-secret Cheat Mode option will appear. With this option highlighted, you can enter cheat codes that will allow you to modify the game as follows:

"**YA SAD LAD**"—Highlight "Cheat Mode" and press **Y**, **A**, **SELECT**, **A**, **Down**, **Left**, **A**, **Down**; you'll hear a tone and a monkey noise to confirm the code. Now you'll start the game with 50 lives.

"**BARRAL AX**"—Highlight "Cheat Mode" and press **B**, **A**, **Right**, **Right**, **A**, **Left**, **A**, **X**; you'll hear a tone and a monkey noise to confirm the code. Now start the game and you'll find that you have both Diddy and Dixie at the beginning of every stage—but all of the "DK" barrels have been removed from the game

75 Kremcoins

Enter the game's first stage, "Pirate Panic"—it doesn't matter if you do this in a new game or a saved game. Walk to the right until you see the entrance to **K. Roo's** cabin. Watch out for the two bananas on the ground right in front of the door; you must avoid these two bananas throughout the entire sequence or else the trick will not work. Walk inside the cabin, but do NOT touch the red 1-Up bal-

loon; just walk out immediately. Back outside, you must carefully jump over the two bananas without touching them. Now go to the right and grab the first bunch of bananas you see on top of a set of barrels. Next, get back into the cabin without touching the two bananas in front of the door. This time, grab the red balloon and exit. Finally, go back to the barrels again and grab that same bunch of bananas, returning to the cabin without touching the two bananas in front of the door. When you enter, you'll find a spinning coin that gives you incredible 75 Kremlins. Now you can access the Lost World through Klubba's Kiosks on any part of the island.

DONKEY KONG COUNTRY 3 DIXIE KONG'S DOUBLE TROUBLE!

Play With Blocks

At the "Game Over" screen, wait for the song to finish playing, then you can make the blocks jump up and play musical notes by pressing L, R, A, B, X or Y.

Cheat Passwords

At the "Select Game" menu, highlight the saved game you want to play in and press L, R, R, L, R, R, L, R, L, R. The words "Enter Code" will appear at the top of the screen and the name of your saved game will turn into a password entry menu. Enter one of the following code words; you'll hear Dixie giggle if a code has been entered properly. When you start from that saved game slot, your game will be affected as follows:

LIVES—Enter this password to start the game with 50 lives.

ASAVE—With this code in place, your game will automatically be saved after you complete each level without having to go visit Wrinkly Kong.

COLOR—This code makes Dixie's clothes purple and Kiddy's pajamas green; it also changes the colors of the flags that mark each completed level accordingly.

HARDR—This code is supposed to make the game more difficult, but we haven't figured out how it works just yet.

TUFTST—Entering this password makes the game harder by removing all of the continue barrels from each level. If you play the full game with this code in place, you can get up to a 105% completion rating.

MERRY—This code changes the music in all of the game's bonus stages to a Christmas motif; it also changes the stars and bananas in the bonus stages to ornaments and presents.

MUSIC—Enter this code to access the secret "Dixie Kong's Music Test" screen, which allows you to sample all of the background tunes from the game.

WATER—Enter this code, then start the game. Swim in the water to the left of Funky's Rentals without any vehicles and go up to the waterfall on the left side of the map. When you touch it, you'll discover a secret puzzle cave that's just like the caves where you find banana birds. If you repeat the sequence correctly, you'll be rewarded with up to 85 bonus coins, enough to pay Boomer Bear to blast away all of the obstacles in the lost world of Krematoa.

DOOM

Chainsaw Trick

With a chainsaw in your inventory, strange things can happen—namely, if you fire every round of ammunition for one of your weapons, the game will usually give you a new, more powerful weapon by mistake. Here's how it works: When one of your weapons runs out of ammo, the game is supposed to switch to a different weapon in your possession. However, once you've picked up a chainsaw, the game's logic gets screwed up. For some reason, running out of ammo can grant you the next most powerful

weapon that's missing from your arsenal. The weapons progress in the following order: pistol, shotgun, chain gun, rocket launcher, plasma rifle. (Unfortunately, you can't get a BFG 9000 with this trick.) Now, let's say you're walking around with a shotgun, chain gun and rocket launcher. If you have a chainsaw, just fire off all of your pistol rounds and you should get a free plasma rifle—even if you're in a stage where there's no plasma rifle to be found. Experiment with this trick to learn how to use it in different situations.

You must first enter each of the five mission passwords shown above as well as the "Unlimited Ammo" password; after

entering each one, return to the password entry screen again and put in the next one. Once all of those passwords have been registered, return to the password menu a seventh time and enter the code M K W F L L. When all of the numbers/faces are in place, hold the L and R buttons on top of Controller 1 and press START. You'll be whisked away to a top-secret Versus Mode screen, where you can play as Bass or Mega Man in a Street Fighter-style arena for two players. Mega Man's Arrow Slasher is $\downarrow \rightarrow + Y$ and his Leg Breaker is $\downarrow \downarrow + B$. Bass' Buster Kick is $\rightarrow \downarrow \downarrow + Y$ and his Sonic Crasher (while jumping) is $\rightarrow \rightarrow + Y$. Both fighters can block by quickly pressing Up twice.

Full Power Password

Enter the password shown above under "Hidden Versus Mode", but don't hold the L and R buttons when you start. You'll begin at Dr. Wily's Castle with all items and weapons fully charged.

MEGA MAN X 2

Diagnostic Test

Hold the B button on Controller 2 and turn on the SNES with Mega Man X 2 installed.

Dragon Punch

You must have all eight weapons, all eight Heart Tanks and all four Sub-Tanks to do this. Defeat Violon and Serges during the last portion of your quest. Once you have the option of going to Agile's level, DON'T DO IT. Head to the Flame Stag's domain (Volcanic Zone) to max out your Sub-Tanks and extra men. Once you have maxed everything out—including weapons—head to Agile's level. Play through this stage until you reach an area where there are two ladders, one of which you cannot reach. Head to the left of the ladders to attract a bat. Freeze the bat with the Crystal Hunter somewhere near the upper ladder (make sure you can reach it from the frozen bat). Climb up the ladder. Charge up your Speed Burner to its maximum. Jump to the right, then use the Speed Burner in mid-air to get over the spikes on the floor. Fall through an opening in the floor thereafter. Use the air dash for the next set of spikes. After that there's a really long drop. Cling to the right wall and use the Radar to find the invisible section in the wall. The Dragon Punch power-up will be waiting for Mega Man. The Dragon Punch can only be used when Mega Man's health is full. Perform the Dragon Punch with $\rightarrow \downarrow \downarrow + Y$.

MEGA MAN X 3

Chip Enhancer

You must have all eight Heart Tanks filled, all four Sub-Tanks filled, all four robot suits and the Dash Boots, Mega Buster, Armor and Sensor/Helmet upgrades to do this, and you can't do it with Zero. Go through the first stage of Dr. Doppler's lab until you reach a pit in the part where spiked balls are falling down from above. Jump into the pit and cling to the left wall; sliding down, you'll find a

hidden tunnel that leads to Dr. Light. He'll give you a special chip enhancer and all four enhancement chips; now you can use all four chips at once instead of only being able to carry and use one chip at a time.

Get Zero's Weapon

Play through the first stage of Dr. Doppler's lab, then play as Mega Man only during the second stage. When you find the door that leads to the robot boss, switch to Zero, then enter and defeat the robot boss. Zero will be damaged during the battle and will give you his special weapon.

If you do all of this, you'll be sent down to the bottom of the Pit to face the green ninja, Reptile.

After a few moments you'll approach two more groups of rotating asteroids; shoot the center asteroids and fly through the gaps just like the first one. A "laughing asteroid" will appear; shoot it to find the Black Hole, a bonus stage that's loaded with power-ups and warp rings.

Roughly 30 seconds into the second stage ("Asteroid"), you'll encounter two gigantic asteroids, first on the left, then on the right. Shoot the asteroid on the right and it will explode. A giant bird will appear. If you can fly directly into the bird, you'll be transported to a weird nebula that will appear on the lower right side of the map. At the end, you'll face a huge slot machine boss; shoot at the "arm" for a chance to win coin-power-ups or enemy fire. Pull three "7s" and the game ends...or does it?

COLLEGE SLAM

Secret Teams
At the College Slam title screen—while the words "Press Start" are flashing—press Up, Down, Left, Right, Up, Down, Left, Right. You'll hear a faint "plink" sound to confirm the code. Now when you choose your team, keep pressing Down when you pass Wake Forest and Wisconsin to find nine secret teams, including "Daytona Beach", "Palm Springs" and seven fraternities.

Whirlwind Cheat

Choose a "Head-to-Head" game at the main menu and pick your teams. When the "Vs." screen appears and the announcer says, "Today's match-up..." quickly rotate the D-pad 720° clockwise like so: ↑→↘↙↖↑↗↘↙↖↑. When the game starts, your player will be a mini-tornado who can knock opponents down just by running into them.

COLUMNS

Magic Jewel
If you successfully score enough jewels, a magic colored jewel will appear. If a column is about to reach the top and a colored jewel appears, place the colored jewel on top of the column, making sure part of the colored jewel is off the screen. If any match is made, the jewels disappear, but any part of the magic jewel that was off the screen will still be usable, allowing you to clear more jewels. The magic jewels will appear after you have cleared 100, 250, 450 and 700 jewels.

COMIX ZONE

Invincibility
Choose "Options" from the title screen, then enter the "Jukebox" mode. Enter the following code by placing the red checkmark cursor on each number in order and pressing C:

Remember to press the C button at each number. If you've done this correctly, you'll hear Sketch say, "Oh, yeah!" Now press START to exit the jukebox and start the game; you'll see that your energy bar will never go down.

Stage Select

As above, choose the Jukebox and enter the following code by placing the red checkmark cursor on each number in order and pressing C:
14, 15, 18, 5, 13, 1, 3, 18, 15, 6
Remember to press the C button at each number. If you've done this correctly, you'll hear Sketch say, "Oh, yeah!" Now highlight a number from 1 to 6 and press C to warp to different stages as follows:
1—Episode 1, Part 1
2—Episode 1, Part 2
3—Episode 2, Part 1
4—Episode 2, Part 2
5—Episode 3, Part 1
6—Episode 3, Part 2
Press START to exit the jukebox and start the game; you'll start at the stage you chose.
Secret Fart
In most of the game's "panels," you can make Sketch pass gas by rapidly pressing Down on the D-pad. It seems easier to do this if there are no enemies on the screen.

Secret Cheat

Choose "View Character" from the non-combat menu. When the screen says "View Which?", press and hold **Left, A** and **C**, then release all three buttons at once. When the character menus come up, press **Left** repeatedly; you'll start to see stats for a lot of strange characters with incredible weapons and armor. If you make these weird characters trade their treasures to the members of your party, you'll be able to get tons of important items quickly and easily. You can earn quick experience points by accepting the knight's quest—since you'll probably have immediate access to the weapon he asks for—and you can sell the unused weapons for plenty of gold.

Free Food

Choose the "Share" option from your command menu and select "Food". After repeating this several times, your entire party's food supply will increase.

MIKE DITKA POWER FOOTBALL

Punt Trick

On offense, choose "punt" at the play selection screen; then, as your players are lining up on the field, press **START** and go to the "Substitutions" menu. Replace your punter with a fast player—one with a speed rating of 80 or more—and return to the game. When the ball is snapped, head for the left or right sideline and take off running. When you get 15 or 20 yards past the line of scrimmage, all of the players on the opposing team will freeze like ghostly statues—you can run all over the field and walk right through them. In a two-player game, the player who is being controlled by your opponent will be the only one who can move.

MILWA SPORTSTALK BASEBALL

Easy Out

If the computer team has men on second and third or bases loaded, press the **B** button and throw the ball to third base, then quickly throw to first. You'll see the runners take off—but the man on second takes so long to get back to the base that you can always pick him off.

MORTAL KOMBAT

Fatalities

When the screen says "Finish him!", quickly enter the code shown below for your character. If you can't get it to work, you may be standing too close or too far away, so experiment with different distances.

Liu Kang—Down, Back, Up, Forward, Down

Johnny Cage—Forward, Forward, Forward, A

Kano—Back, Back, A

Rayden—Forward, Back, Back, Back, A

Sun-Zero—Forward, Down, Forward, A

Sub-Ya—Forward, Forward, Back, Back, START (Block)

Scorpion—Up, Up (easier if you hold Block)

Secret Boss

To find the secret character, Reptile, you must play in one-player mode until you reach the stage called "The Pit". Now look at the moon in the background; if there is a shadow of any kind flying in front of the moon, follow these steps: You must win two perfect rounds (a "Double Flawless" victory) without ever using the Block button, and you must successfully perform your character's fatality on your opponent. If you do all of this, you'll be sent down to the bottom of the Pit to face the green ninja, Reptile. If there is no shadow flying in front of the moon, you cannot reach Reptile. The "Super Cheat Code" below can help you; turn on Flag 2 at the cheat menu to guarantee a shadow in front of the moon on the PR stage.

Arcade Mode

Wait for the screen which says, "The word 'code' has many different definitions," etc. Press **A, B, A, C, A, B, B**. You'll hear Scorpion say, "Get over here!" as the letters turn blood-red. You've just activated "Mode A," with all fatalities and blood effects intact.

Super Cheat Code

At the "Game Start/Options" screen, spell the word "DULLARD" with the controller by pressing **Down, Up, Left, Left, A, Right, Down**. A third menu item called "Cheat Enabled" will appear. Highlight this new option and press **START**; you'll get a hidden configuration menu with new options as follows:

• **Fighter 1/Fighter 2**—Choose which characters will appear in "Demo" (see below).

• **Plan Base**—Fight your opponents in a predetermined order in the 1-player mode.

• **Chop-Chop**—Allows you to choose which materials you'll be shattering in the block-breaking Bonus round; this only works when you enter the Bonus stage from this cheat menu by choosing "Chop-Chop" under the "Demo" option.

• **1 Play Chop/2 Play Chop**—These numbers determine the frequency with which the Bonus stage appears during the game. Choose "1" to make the bonus stage appear after every battle or "6" to stall it for six battles. "0" disables the Bonus stage entirely.

• **Demo**—This option will show you different sequences from the game; just pick a scene and press the **A** button to view it.

• **FLAG0/FLAG1**—Player 1 and/or Player 2 starts each round in "Danger" mode; one hit and you're dead.

• **FLAG2**—Guarantees a shadow in front of the moon on the Pit stage.

• **FLAG3**—Changes the moon shadow into the head of Fergus McGovern of Probe Software.

• **FLAG4**—Gives you Reptile hints before every battle.

• **FLAG5**—Gives you infinite credits.

• **FLAG6**—The computer does fatalities on you in one-player mode.

• **FLAG7**—Locks in the background at the Palace Gates stage all the way up to the endurance match.

• **Blood On**—Turns on the blood effects and arcade fatalities.

• **Cheat On**—Turn this "Off" to deactivate all of the flags simultaneously; otherwise, leave it in the default "On" position.

• **1st Map**—Use this to select the starting scenario or background. If you choose to start at the Pit, you will always get a shadow in front of the moon, which makes it easier to find Reptile.

MORTAL KOMBAT II

Test Modes

At the options menu, put the cursor on "DONE!" and press **Left, Down, Left, Right, Down, Right, Left, Left, Right, Right**. A new menu option called "Test Modes" will appear. The new menu options allow you to make either player invincible, put either character in "Danger" mode, choose any background, set free play, make the computer do fatalities and more.

Ferality

At the Test Modes menu, set the Background to 6 and turn on the "Oooh, Nasty!" option. Play the game as Rayden, and when it's time to do a fatality on your opponent, press **Away, Away, Away, Block**. That weird character is Fergus McGovern of Probe Software, developer of the Genesis version of *MKII*.

MORTAL KOMBAT II (32X)

Test Modes

At the options menu, put the cursor on "DONE!" and press **Left, Down, Right, Right, Down, Left, Left, Left, Right, Right, Right**. A new menu option called "Test Modes" will appear, giving you options similar to the Genesis cheat menus described above.

MORTAL KOMBAT 3

Play as Smoke

When the MK3 logo appears at the beginning of the game and you hear a gong, press **A, B, A, Down, A, B, B, A, Down, Up, Up**. You'll hear Shao Kahn say "Smoke" and the background color will change from black to blood-red. Now Smoke is a playable character in both the one- and two-player modes.

Endurance Mode

At the main menu, highlight the words "Start Game", hold the **A** and **C** buttons and press **START**. This takes you to a hidden character-select screen in which both players can choose up to eight fighters for an Endurance match. Press **START** to register for the battle, then use **Left** and **Right**

on the D-pad to choose a fighter for each box in the line-up. Press B to choose a fighter at random for the current box, or hold Up and press START for a random selection of characters for all boxes. Choosing the dragon logo is the same as choosing a character at random, but you won't know who the character is until his or her turn comes up during the fight. With a Sega Tap adapter, up to four players can participate.

Secret Cheat Menus

At the main menu, press A, C, Up, B, Up, B, A, Down. A new menu item called "Cheats" will appear. Choose it, and you'll get a secret menu with several new options. "Sound Test" lets you listen to all of the sound effects and music from the game, "Continues" allows you to change the number of credits in a one-player game (up to 95) and "Bio Screen" lets you see any character's biography simply by pressing the START button.

Also at the main menu, press B, A, Down, Left, A, Down, C, Right, Up, Down. Another new menu item called "Secrets" will appear. The "Timer" option allows you to change the speed of the game clock, or switch it off entirely. "Win Screen" lets you see the ending story of any character by pressing the START button, and "Kombat Zone" allows you to choose which stage you'll be playing in when you start the game.

Another cheat code that can be entered at the main menu is C, Right, A, Left, A, Up, C, Right, A, Left, A, Up, which gives you a "Killer Codes" menu. "Quick End" lets you perform fatalities, babalities, etc. with just one or two buttons, usually the last button (or combination of buttons) in the series when you perform the finishing move normally. (For example: the sequence for Jax's normal Friendship move ends with the LOW KICK button. If you set the "Quick End" option to "Friendships", you can do Jax's Friendship move by simply pressing the LOW KICK button once when the screen says "Finish Him!") The "Smoke" option gives you the ability to activate Smoke as a playable character without the hassle of entering the "Play as Smoke" code described above, and "Bosses" lets you choose Shao Kahn or Motaro as controllable characters—but only in two-player mode. "Play Hidden Game" lets you sample the hidden shooter game which appears when the battle counter reaches 100 in the normal game; hold any button after you lose your last ship to see some statistics about your performance.

S

SCOOPY-DOO MYSTERY*"Blake's Hotel" Solution*

After the opening sequence, Shaggy and Scooby will be in the Lobby of the Blake Hotel. Look at the creepy painting, then open the door to the left of it. Walk through the door into the office, where you'll find a distress message from Uncle Blake on the chalkboard. Take the heater from the floor, then open the drawer in the desk and take the scissors. Examine the book collection and the missing book for a clue that will be helpful later on. Return to the lobby and head up the staircase.

In the upstairs hallway there are seven doors, six along the corridor and one at the end which is locked. Open each of the six unlocked doors to see a series of chase scenes. At the end of the sixth or seventh chase, Shaggy and Scooby will emerge through the locked door, which will now remain open. Go through the door into the gardener's bedroom. Open the drawer in the nightstand and take the book. Now open drawer in the dresser and take the

antacid. Return to the hallway and use the dumbwaiter near the stairs to descend into the kitchen.

After exiting the dumbwaiter, take the pot hanging from the ceiling. Push the flour in the cupboard, then look through the peephole where you'll see two shadowy figures talking about Uncle Blake.

One of them will throw a crumpled note into the fireplace. After they leave, use the pot with the sink to fill it with water. Exit the kitchen through the swinging doors.

In the cafe, talk to the chef. He won't believe you are hungry. Eat the antacid to make him leave. Once he is gone, take the key hanging behind the counter. Open the cabinet in the lower right-hand corner of the room and take the can opener. Push the radio in the upper-right corner to reveal a compartment on the side. Open the radio and take the battery. Now exit the cafe through the archway on the right to return to the Lobby.

Use the pot of water with the fire to put it out, then take the crumpled note, which contains a clue about finding the dungeon. Open the outside door to the left and walk outside. Walk down the steps and to the left, where you'll find a snowman and a shed. Take the shovel from the snowman. Use the key with the lock on the shed, then open the shed. Take the crowbar, the work gloves and the weed killer from the shed. Use the shovel with the snowman, then take the frozen bell. Walk back the right and use the shovel with the snow-covered doors. Use the crowbar with the double doors to break the lock, then open the doors and go down into the basement. Open the locker and take the extension cord inside. Take the screwdriver sitting in the lower left corner of the room, then use the stairs to find a secret door into the office.

Return to the lobby and up the stairs to the gardener's bedroom. Use the work gloves with the poison oak. Take the air freshener hanging from the antenna, then take the bed springs from the bed. Walk back to the hallway and use the dumbwaiter to return to the kitchen. Open the microwave, then use the frozen bell with the microwave. Shut the microwave and then use it. Open the microwave again to take the cow bell. Take the beads on the floor and the can of chili from the shelf under the peephole. Use the can opener with the chili to give Shaggy a much-deserved snack. Push the refrigerator and take the soda tab from behind it. Walk to the right, and use the screwdriver with the vent covering. Use the empty can with the termites in the wall to capture some of the critters. Walk back through the swinging doors into the cafe and exit left to the lobby.

Use the cow bell to summon the Bellhop. Talk to the Bellhop to find out that he collects Native American artifacts. Give the beads to the Bellhop and he will tell you that he is looking for a Kachina doll he dropped in the woods. Walk outside and use the heater with the bear. You'll need to power it up, so use the extension cord with the heater. Once the bear is awake, use the poison oak with the bear. After he knocks over the totem pole, use the totem pole bridge to cross the lake.

Once you are across the bridge, use the fishing pole. Use the pole repeatedly until you catch a Kachina doll. Take the doll. Use the scissors with rope tied to the pier and take the rope. Walk back across the bridge and enter the hotel lobby. Use the cow bell to summon the Bellhop again. Give the Kachina Doll to the Bellhop, who will give you a goblet in return. Take the goblet, then exit the hotel.

Once you are outside, use the bed springs. Take the Christmas lights while Shaggy is bouncing. Go through the double doors down into the basement. Use the crumpled note on the wine rack to open the secret passage. Go through the passage into

the mine. Find and take the three wheels hidden along the walls of the mine. One is at the far left, another is next to the right of the door you entered through, and the third is next to the support beam to the left of the mine car. Use the wheels with the mine car, then use the mine car to descend into the shaft. Walk right to the pond and use the air freshener, then walk through the open archway into the maze. Now you'll need a source of light to proceed into the maze. Use the Christmas light with the battery, then use the soda tab with the battery. When you've assembled the light, simply use the flashlight and you can find your way to the exit at the upper right corner of the maze.

Now you'll find yourself in an ancient tomb. Walk to the vegetation-covered wall on the right and use the weed killer with the killer lettuce. Walk through the exposed doorway into the dungeon. Use the rope with the cuffs next to the hole, then use the rope to find Uncle Blake. Talk to Blake, the use the termites with Uncle Blake to set him free. You will automatically be put back in the dungeon after you hear Scooby get into a scrape. Follow Blake into the tomb and give Blake the book. Use the goblet with the statue, then talk to the statue. Choose "xyzzz" as the magic word and the medallion will appear.

After taking the medallion, return through the maze to the pond. Walk left to the shaft and use the hose with the engine. Use the hose with the gas to fill the engine, then use the big red switch to turn the engine on. Now use the cart to ride back up into the mine. Walk through the top door to the basement where the ghost is chasing Scooby. Use the medallion with the hook hanging in the middle of the room, trapping the ghost and saving Scooby.

Ha-Ha Carnival Solution

From the front Lot of the Ha-Ha Carnival, walk to the right and head down the pier which leads off screen to the bottom; you'll see Fred, Daphne and Velma stuck on the pond. Walk back to the front lot, then head up through the blue archway (marked with the closed sign) to the Boardwalk.

Open the trash can next to the funhouse to find the mummy bandages. Continue walking right, past the funhouse and the roller-coaster until you come to the Madame Zelda Machine. Take the yellow coupon from the machine, which will give you a free shot at the Hammer game. Walk up to the taffy puller and take some taffy. Now walk right and enter the Boathouse, which is the building marked with the anchor. Take the boat and the bottle from the pool. Open the bottle, then look at the note, which will tell you that someone is being held prisoner in the haunted house. Exit the Boathouse and walk left until you come to the gaping down's mouth which is the funhouse. After entering the funhouse, you will be in a room with a rotating floor. There are three exits; to enter them you must attempt to move in the opposite direction of where you wish to go. First, press Right on the D-pad to enter the left tube, which will drop you in the Hall of Mirrors. Walk right until you come to the mirror with wheels and push the mirror to get rid of the scary clown. If the clown spooks you away, come back and push the mirror before the clown is in view. Take the spark plug the clown drops and exit to the left.

Enter the funhouse again and press Down to enter the center tube. This will drop you in the bumper cars room. Use the taffy with the engine, then use the switch to start the cars. Use the bumper car and prepare for battle with the clown. The best way to defeat him is to avoid the walls at all costs, then ram him when he is stuck against them. If he defeats you, come back and try again. Once you win, he will run off, dropping a dart. Pick up the dart and

exit to the right.

Once again, enter the funhouse. This time press Left to enter the right tube which leads to the Haunted House. Take the boots from the monster. Open the coffin to reveal the mummy, then pull the bandage after the coffin is closed. If Shaggy is too scared, simply pull the bandage again to free the carnival manager. Now exit the Haunted House in the lower left corner of the room.

Walk left from the boardwalk to return to the front lot. Talk to the kid to find out that he wants a water pistol. Walk right and enter the Hammer Game. Give the coupon to the attendant, then use the hammer with the hammer game. That didn't seem to work, so pull the pole next to the game to turn the tables on the cheating attendant. Now walk back through the front lot to the boardwalk and continue right until you reach the entrance to the back lot.

Go into the back lot and use the ladder to the left to reach the bungee jump platform. Use the bungee harness, and take the bucket while Shaggy is bouncing. Once you're back on the platform, use the ladder to return to the back lot. Return to the boardwalk and use the bucket with the faucet next to the taffy machine. Go to the back lot and walk right until you reach the balloon stand. Use the balloon with Scooby to get the magnet from the ferris wheel. Now walk into the diving bell. Use the valve in the bell, then open the hatch once you are submerged. Use the magnet with the treasure to retrieve some tokens, then use the bucket with Inky, the baby octopus. Use the valve to return to the surface.

Walk all the way back to the front lot, then enter the Arcade tent to the right. Use the tokens with the crane game to get the water pistol. (It might take a few tries, but it seems to work best if you leave the crane in its starting position and press the button when the pistol is at the back of the rotating platform.) Enter the door marked "Employees Only" to the right of the strong man; it leads to the dressing room. Take an application from the table, then open the trunk and take the wrench.

Return to the front lot and give the water pistol to the kid. Now return to the fortune telling machine on the boardwalk. Use the tokens with Madame Zelda, then ask the question "What is the meaning of life?" to make the machine break. Take the head from the broken machine. Go left to the Roller Coaster booth and give the tickets to the attendant to find out that you must have at least four riders. Now enter the funhouse again and press Left to enter the tube to the Haunted House. Use the wrench on the bolts in the monsters neck, then exit.

Walk back to the kid and talk to him until he agrees to ride the roller coaster with you. After the attendant tells you the kid is too short, give the boots to the kid. Don't worry, if you have Zelda's head, the attendant will still let you ride after the kid runs off. Once you are on the roller coaster, quickly use the brake handle. After you are safely stopped, use the bolts with the track. After the track is repaired, use the brake again. On the second roller coaster screen, quickly use the second brake. If you miss either brake, you can ride the coaster again without hassle. Open the shed next to the track and take the paintbrush. Now use the brake again to finish the ride.

Walk to the front lot, then walk down the pier to the pond. Use the spark plug with the boat, then use the boat with the pond to save the gang.

After the intermission scene, enter the front office to the right. You can talk to the manager, but he is unwilling to help. There is a stamp on his desk, so use the rubber stamp with the application. Return to the front lot and enter the arcade tent. Give the tickets to the dart attendant,

then use the darts (the darts he places on the counter, that is; the one in your inventory won't work.) Play the game three times to win the teddy bear.

Finally, go right to the dressing room and use the application with the bulletin board. Walk to the front lot and take the sign from next to the Java Hut, then go to the back lot. Give the teddy bear to the balancing bear and take the ball she leaves behind. Use the paintbrush with the bucket with Inky, then use the Inky brush with the sign. Use the sign to complete your trap. Now you have to get the clown into the ferocious beast's cart, so while he is standing there looking confused, use the dart with the ball.

Choose "Start" from the main menu; the Level Select menu will appear. You can choose any stage, including the Tails and Knuckles bonus rounds. With this code in place, you can skip stages at any time by pressing START to pause, then pressing the A button to warp to the next stage.

- Hold C and press START to warp to the "Showdown" stage.

SONIC THE HEDGEHOG 3

At the title screen—just as Sonic is starting to appear—press Up, Down, Left, Right. You'll hear a chime. Now hold the A button and press START to get a secret menu that allows you to start at any stage or hear any of the game's music or sound effects.

Cheat Code

At the title screen—just as Sonic is starting to appear—press C, C, Up, Down, Left, Right. You'll hear a chime. With this code in place, you'll have access to the following features:

- System Reset—Press START to pause the game, then press A to reset to the title screen.

- Slow-Motion—Press START to pause, then hold the B button to play in slow motion. If you tap the C button while paused, you'll advance the action one "frame" at a time.

- Debug Mode—When the name of the current zone appears in big letters at the start of a stage, press the A button and hold it down until Sonic appears. Your "Score" indicator will be replaced by a bunch of hexadecimal numbers. Now you're invincible; the only thing that can kill you is if you fall off the screen. Press B during gameplay to change Sonic a different object from the game; while Sonic is a different object, you can move the object anywhere in the current stage with the D-pad. Also, when in "object" mode, press A to change to a different object, C to place a copy of that object on the screen or B to change back into Sonic and continue play. Use this feature to modify the game's stages or even "draw" hundreds of gold rings on the screen; when you change back into Sonic you can pick them all up.

SONIC THE HEDGEHOG 2

Stage Select

At the "Sound Test" menu, listen to sounds 19, 65, 09 and 17 in order; you'll hear a chime when you activate the last sound. Next, return to the title screen, highlight "1 Player", hold A and press START to access the stage-select menu. With this code in place, you'll also have access to the following features:

Chaos Emeralds Cheat

This code gives you all of the Chaos Emeralds; you can grab 50 rings and jump to change into Super Sonic. You'll also be able to see the "good" ending when you beat the game.

Debug Mode

At the stage-select menu (see above), highlight "Sound Test" and listen to sounds 01, 09, 09, 02, 01, 01, 02 and 04 in order; you'll hear a chime to confirm. Now highlight the name of any stage, hold the A button and press START; don't release A until the

stage begins. See the codes for the original Sonic the Hedgehog above to find out how the debug mode works; the only difference is that you don't get invincibility when you enter the Debug Mode in Sonic 2.

Enter the "Debug Mode" code above, then highlight the name of any stage at the stage-select menu, hold C and press START. This darkens the graphics, making it seem like you're playing at night.

SONIC THE HEDGEHOG 3

Stage Select

After the Sega logo appears at the start of the game, you'll see a blurry scene of Sonic rushing toward you. The instant Sonic appears, quickly press Up, Up, Down, Down, Up, Up, Up, Up. You'll hear a chime to confirm the code. Note: This is a very difficult code to enter. You must press the buttons at a consistent speed, starting at the exact moment when the screen turns black; you should finish entering the code just a split-second before the screen turns pure white. Use a very light touch on the D-pad and press Up and Down evenly, making sure not to touch the diagonals. If you don't hear the chime, just reset and try again. Once you've done it right, press Up or Down at the title screen menu until you see a new item called "Sound Test"; this gives you a stage-select and sound test menu. The list even includes the names of zones that were taken out of the game before it was released. You can't play these stages, but you can hear the music from them with the Sound Test option. With the code in place, you have access to the following features:

- System Reset—Press START to pause the game, then press A to reset to the title screen.

- Slow-Motion—Press START to pause, then hold the B button to play in slow motion. If you tap the C button while paused, you'll advance the action one "frame" at a time.

Debug Mode

At the stage-select menu (see above), highlight the name of any stage, hold the A button and press START; don't release A until the stage begins. See the codes for the original Sonic the Hedgehog above to find out how the debug mode works; the only difference is that you don't get invincibility when you enter the Debug Mode in Sonic 3. However, if you get killed when playing in Debug Mode, just press the B button quickly before Sonic falls off the screen with the surprised expression on his face; this will change him into an object and freeze the action. Now just use the D-pad to move the object to a safe place and press B to change back into a healthy Sonic.

At the stage-select menu (see above), highlight the name of any stage, hold the C button and press START. This darkens the graphics, making it appear as if you're playing at night.

VECTORMAN**Hidden Game + Level Warps**

When the Sega logo appears at start-up, notice that you can move Vectorman around the screen with Controller 1. To find a hidden game, move Vectorman under the Sega logo and shoot straight up at it exactly 24 times. Next, make Vectorman jump up and hit his head on the logo exactly 12 times. You'll see the words "Get Ready" on the screen, then the letters "S", "E", "G" and "A" will begin to fall from the sky; 120 of them, to be exact. If you catch between 90 and 109 letters, you'll be able to start the game at Day 5; if you can catch 110 letters or more, you'll warp to Day 10.

Blow Up Sega

Also at the Sega logo screen, stand on the ground just slightly to the right of the logo and fire your weapon straight up into the air. There's a TV set hidden just off the screen; if you blow it up, it will reveal an Orb power-up. (You'll have to jump up from the logo to grab it.) If you detonate the Orb, the Sega logo will go dark and the background will stop moving.

Cheat Codes

Vectorman has tons of cheats that can be activated during the game with the following sequence: Press **START** to pause, enter the code, then press **START** to un-pause. Try the following codes while the game is paused for different effects:

ABRACADABRA (A, B, Right, A, C, A, Down, A, B, Right, A)—Refill your energy counter at any time.

BALL or BALD (B, A, Left, Left or B, A, Left, Down)—See the programmers' debugging coordinates.

ABACABB (A, B, A, C, A, B, B)—Five dots will appear around Vectorman and follow him wherever he goes.

DRACULA (Down, Right, A, C, Up, Left, A)—When you get hit, the game will slow down to help you to recover safely.

CALL A CAB (C, A, Left, Left, A, C, A, B)—Vectorman turns into a small arrow. This works like a level warp; you can move the arrow anywhere in the current level without taking any damage, so use it to skip the tougher parts of the game. You can't shoot TVs or collect power-ups while you're an arrow, but you can destroy many enemies just by touching them. When you want to change back into Vectorman, just pause and enter the code again.

Super Cheat Menu

At the Options menu, press **A, B, B, A, Down, A, B, B, A**. You'll be taken to a top-secret cheat menu that allows you to adjust your health meter and start at any stage with any weapon.

Press **START** at any time during the game to pause, then press **Up, Right, A, B, A, Down, Left, A, Down**. When you un-pause, you'll see a top-secret cheat menu with sound and music test options as well as a full stage select menu that allows you to warp to any stage in the game, including any of the ending screens, the bonus rounds and even a special testing stage called "Ron's Test Level".

VIRTUA FIGHTER 2**Boss Code**

At the character-select screen, hold **Left** or **Right** on the D-pad (or **Right** if you're Player 2.) The cursor will cycle quickly through the available fighters. button and press **C** while entering the last letter of any valid password.

Shop Discounts

When entering the shop, hold **START** and press **C** while the word "BUY" is highlighted. You'll find that the cost of all items has been cut in half.

Bonus Round Cheat

When you've completed the first round of any land with more than one round in it, wait for the words "PUSH START BUTTON!" and "YEAH!" to flash on the screen. Hold **A** and **C** and press **START** to begin the second round, and all of the "BONUS" letters will light up, allowing you to enter the bonus round after you've completed that land. (Note: This trick doesn't work on every level.)

Infinite Continues

When you're down to your last continue, leave the cursor on the words "Continue 01" and wait for the game to go back to the introduction. When the demo sequence begins, press Right, Up, A, B, C, Left, Left, Down, C, A, START. You'll find that the number of continues shown on the title screen has been boosted to ten. Whenever you get down to your last continue, just perform the trick again for another ten chances.

Mania Mode

During the intro sequence, press B, B, A, C, Up, Left, Right, Down, C, Up, A on Controller 2, then press START on Controller 1. You'll know the cheat is in place if your score reads "00001" when you start the game. You're now in "Mania Mode," a difficulty setting that's even tougher than the "Hard Rank" on the option screen.

SLAM CITY WITH SCOTTIE PIPPEN

Super Slam vs. Fingers

Play against Fingers. Before he inbound the ball to you, enter the code B, A, Left,

Left ("BALL"). Now you can super-slam without hitting the "sweet spot."

SNATCHER

Secret I.D. Files

Enter the computer room at Junker H.Q. and select "USE JORDAN." Now select "LOAD I.D. FILE" and enter any of the following names to read data profiles of most of the folks at Konami who worked on the game in the U.S. and Japan: ADACHI, CHRISTIAN, FUJIO, FURUKAWA, HARUKI, HAYASAKA, IMAI, INAMURA, INOUE, JEREMY, JONATHAN, KASAI, KATHLEEN, KATHY, KEVIN, KIMBERLEY, KIRITA, KOJIMA, KUSHIBUCHI, MARK, MARLYSE, MATSUHANA, MICHAEL, MIKE, MORI, MURAKAWA, NAKAMURA, NOSE, OOTA, OTANI, PETER, SAITOU, SASAKI, SHINOHARA, TOGO, KYLA.

Secret VideoPhone Numbers

To contact some of the above people in the game, select "USE METAL GEAR" and choose the "VIDEOPHONE" option; Konami staffers can be reached at the following unlisted numbers:

33-3333—Mr. Kushibuchi
34-5678—Miss Hayasaka
41-6766—Jeremy Blaustein
44-3723—Mr. Inamura
44-6454—Mr. Togo
79-6641—Mr. Sasaki
84-6736—Mr. Nakamura
These numbers are just for fun and don't affect the outcome of the game. Try entering certain numbers several times to get different answers.

SOL-FACE

Cheat Mode

Press A, B, C, A, B, C, B, C, B, A at the title screen; you'll hear a buzzing sound to confirm the code. Now enter the "Config Mode" and you'll find extra menu items that allow you to select a starting level and set the game's difficulty.

99 Ships

Choose the "Mode" option and change the difficulty to "Easy," then press Right four times. The indicator will read "MY99," indicating that you'll have 99 ships in reserve when you start the game.

Invincibility

After entering the above code, select "MY99," hold the A button and press Right eight times. The word "MUTEKI" will appear. Continue to hold the A button down while exiting the configuration menu, and you'll be invincible throughout the game. (If you release the button before you exit, the Mode setting will change back to "MY99.")

Level Skip

With the above codes in place, you can skip to the end of any stage by pressing A+B+C simultaneously during the game.

SONIC CD

Stage Select

Enter the following code while the words "PRESS START" are flashing on the title screen: Up, Down, Down, Left, Right, B. You'll be sent to a "Stage Select" menu with full access to nearly all of the game's levels, including the "past," "present" and both "future" versions of each stage. You can't start a game from any stage with this trick—since you'll be sent back to the game's title screen as soon as you clear a stage—but you can use it to see the whole game and check out a few of the demo scenes.

Title-Screen Tricks

While the words "PRESS START" are flashing on the screen, hold the A button and press Up, Down, Down, Down, Down, Up. Now grab Controller 2 and start pressing the buttons to see what happens: Hold Left to zoom out, Right to zoom in, Up to tilt the horizon toward you and Down to tilt the horizon away from you. You can also press A or C to rotate the clouds clockwise or counterclockwise, respectively; holding the B button speeds up the movement.

Secret Demo Mode

Play the Time Attack Mode until your total time is less than 37'27"57. When you

achieve this goal, go back to the title screen—you'll find a new selection on the menu called "D.A. GARDEN." It's a visual sound test—you can move the globe around the screen with the D-pad as the game's characters fly across the foreground. Press A to choose a tune to listen to, press B to change the direction of the globe's rotation (hold B to make it spin faster) or hold C to zoom in—release C and hold it again to zoom out.

Bonus Round Time Attack

If you can get your total time below 30'21"05 in the Time Attack Mode, you'll be able to access a new set of challenges by pressing Left on the D-pad while the Time Attack menu is on the screen. Now you can race in the "Special Zone" bonus rounds.

Visual Mode

The most difficult Time Attack trick of all requires you to get your total time below 25'46"12. Once you've cut your time down this far, you'll find a "VISUAL MODE" option on the title-screen menu—it allows you to watch the game's opening sequence, both the "bad" and "good" endings and a unique "Pencil Test" demo.

Sound/Music Test

Press Down, Down, Down, Left, Right, A while the title screen is flashing the words "PRESS START." You'll move to a hidden Sound Test menu, with options for listening to sound effects ("FM"), digitized samples ("PCM") or digital audio tracks straight from the CD ("DA").

Secret Bonus Round

Using the Sound Test as described above, set all three menu items at "07" and press the START button. A message will appear that says "WELCOME TO SECRET SPECIAL STAGE," a special bonus round! Beat this stage and you'll get a condensed credit screen that's different from the credits you'll see when you beat the game.

Strange Message

Set up the numbers in the Sound Test as follows: FM No. 46, PCM No. 12, DA No. 25. Press START; this gives you a weird screen with an evil-looking Sonic behind a message in Japanese.

Sonic the Human Hedgehog?

Using the Sound Test, enter the following numbers: FM No. 42, PCM No. 04, DA No. 21. Press START and you'll get an eerie graphic of a half-human Sonic.

STELLAR FIRE

Stage Select

Go to the Start Game/Difficulty menu and highlight the word "Normal." Next, press A to cycle through the different difficulty settings and hold the A button down when you get back to the Normal setting. While holding A, press and hold C and START; then, while continuing to hold those three buttons—with the word "Normal" still on the screen—press Up on the D-pad. You'll hear a chime to indicate that you've skipped a stage; continue to press Up to skip as many stages as you wish. (Two chimes will start you at the third stage, three chimes will start you at the fourth stage and so on.) Next, choose "Start Game" to play the selected stage.

T

THE TERMINATOR

Extra Weapons, Bombs, Lives

Hold the D-pad to the Right at the Start Game/Options screen, then press B, C, B, B. Release the D-pad and the cursor will change from an arrow into a square. Press START and you'll find the secret menu that allows you to load up on guns, lives and bombs!

Level Select

First enter the code shown above. Once you're at the secret options menu, hold the D-pad Left and press B, C, B, C. Release the D-pad and the cursor will change from an arrow to a square. Go down to "Run Game" and press A to find the Level Select.

Infinite Shields

Go to the Level Select screen by entering the codes shown above. Once you're there, hold the B button and press Left, Right,

Right, Left on the D-pad. The cursor will change from an arrow to a square. When you start the game, you'll have infinite shields.

Full-Motion Video Scene Select

At the "Options" menu, hold the C button, push Right, Left and release C. You'll see the flashing triangle cursor change into a square. Next, choose the "Sound Test" option and you'll find a new menu item called "Cinema Sequences." The menu contains all of the video sequences in the game.

Save Anywhere

If you're in an area where the "Save" option is not available, you can still save your game. Call up the menu and highlight the "STATUS" option. Hold the START button and point the D-pad diagonally in the Down/Left position. When the cursor jumps down to the previously unavailable "SAVE" option, quickly press the A button for the save menu.

W

WILD WOODY

Super Cheat Code

At the title screen, hold Down, A and C on Controller 1 and hold Left and B on Controller 2; you'll hear a magical sound. Start the game and you'll be able to do all kinds of cool tricks with Controller 2. The A button on Controller 2 will refill your energy at any time. Pressing B on Controller 2 gives you a Sketch power-up and a Pencil power-up at the same time; press B repeatedly to fill your book with tons of sketches. If you hold the C button on Controller 2, you can use the D-pad to move Woody around the screen, through enemies and obstacles; place him anywhere you like and release C to start there. Pressing START on Controller 2 brings up a full stage-select menu.

WONDER DOG

Hidden Zones

The entrance to the Underground is hidden in Bunny Hop Meadow, Zone 2. Walk right from the first Restart Flag to the gray patch of ground. Spin dig through the patch and walk right until the ground shifts to the left. Walk left and spin dig through the second patch to enter the Underground. The entrance to the Moon Mines is hidden in Looney Moon, Zone 2. Play through the zone and collect the Smiley symbol to make all the hidden blocks appear, then keep going until you reach a dark patch in the ground. Spin dig through the patch and walk right to find a "wall" of two blocks. Shoot the blocks, get a running start and slide through the tunnel, then walk onto the yellow ledge to drop into the Mines.

Two Hidden 1-Ups

There are two hidden 1-ups in the Scrapyard, Zone 1. After you run up the hill and under the bouncing tires, jump onto the mattress and bounce down and right onto the blocks between the spikes. Shoot the blocks to drop to the ground. Now turn left and shoot the wall. It slides back to reveal two 1-ups.

WWF RAGE IN THE CAGE

Player vs. Same Player

In a one-player game, select "Player" on the "Opponent Chosen By" screen. When choosing your character, hold Left and press C. When you hear the signal that the wrestler has been chosen and the gold "Player" medallion appears by his name, press Down on the D-pad. A duplicate of the first character will appear, allowing you the option of picking the same wrestler to be your opponent.
